A BETTER CHOICE FOR YOUR HOME

Whether you’re replacing, remodeling or building new, Andersen® 100 Series windows and patio doors offer many advantages over vinyl. They offer superior strength and performance because they’re made of innovative Fibrex® composite material, which is 2X stronger and more durable than vinyl. They’re also available in a variety of rich dark colors with finishes that are made to last and they’re designed to retain their stability and rigidity in all climates. Plus, 100 Series windows and doors are environmentally responsible and energy efficient, making them a better choice for your home.

*When 100 Series products were tested against five leading competitors’ painted vinyl window products.
STRENGTH & PERFORMANCE
Fibrex® material is 2X stronger than vinyl and it retains its stability and rigidity in all climates so weathertight seals stay weathertight.

100 Series products can withstand temperatures up to 150°F, even in dark colors, meaning they won’t warp due to sun exposure.

ENERGY EFFICIENT
Our weather-resistant construction seals out drafts, wind and water so well, you can relax in comfort whatever the weather. Plus, Fibrex material blocks thermal transfer nearly 700 times better than aluminum to help reduce heating and cooling bills.

COLORS THAT LAST
Durable, factory-finished interiors and exteriors feature a premium matte finish that isn’t shiny like vinyl plus they never need painting and won’t fade, flake, blister or peel.

On 100 Series products, the finish is 12X thicker than that of painted vinyl windows resulting in superior scratch resistance so they’ll look beautiful for years to come.

ENVIRONMENTALLY RESPONSIBLE
Our exclusive Andersen® Fibrex composite material is composed of 40% reclaimed wood fiber by weight, most of which is reclaimed from the manufacturing of Andersen wood windows.

See how Andersen created Fibrex material at andersenwindows.com/fibrex

ADVANCED CRAFTSMANSHIP
100 Series products feature virtually seamless corners for a cleaner, more contemporary look.

TRANSFERABLE LIMITED WARRANTY
Most other window and door warranties end when a home is sold, but our coverage — 20 years on glass, 10 years on non-glass parts — transfers from each homeowner to the next. And, because it’s not prorated, the coverage offers full benefits, year after year, owner after owner. So it can add real value when you decide to sell your home.

WINDOW & DOOR TYPES

Choose the product style and frame type needed to complete your replacement, remodeling or new construction project and bring your vision to life.

SINGLE-HUNG
Single-hung windows feature a stationary upper sash and operable lower sash that slides up and down.

CASEMENT & AWNING
Casement windows are hinged on the side and open outward to the left or right, while awning windows are hinged at the top and open outward.

GLIDING WINDOWS
Gliding windows have one stationary sash and one operating sash that glides horizontally. A three-sash configuration, where two sash glide past a fixed center sash is also available.

GLIDING PATIO DOORS
Patio doors feature one stationary panel and one that glides smoothly on adjustable rollers. Add character and light with a sidelight or transom.

SPECIALTY WINDOWS
Specialty windows are stationary (non-operable) windows characterized by their special shapes, including curves and dramatic angles. A variety of shapes are available to complement your home’s architecture.

Windows and doors are available in custom sizes to fit all projects.
COLOR OPTIONS

100 Series windows and patio doors come in five exterior colors, including dark bronze and black — colors that are darker and richer than those of most vinyl windows. They also feature a premium matte finish inside for an attractive appearance.

EXTERIOR COLORS

- White
- Sandtone
- Terratone
- Dark Bronze
- Black

INTERIOR COLORS

- White
- Sandtone
- Dark Bronze
- Black

HARDWARE OPTIONS

Single-Hung & Gliding

STANDARD

- Lock
- Lift/Pull (Optional)

Lock automatically engages when window is closed. Hardware color matches the window’s interior. Shown in white.

OPTIONAL SLIM LINE METAL HARDWARE

TULSA

- Exterior handle matches exterior door color. Shown in dark bronze.
- Interior handle matches interior door color. Shown in white.

OPTIONAL AFTON

- Antique Brass
- Black
- Bright Brass
- Satin Nickel

Gliding patio doors feature a multi-point locking system for enhanced security. Optional auxiliary foot lock is available to secure the gliding panel and provides an extra measure of security when the door is in a locked position. Exterior keyed lock also available.

Bold names denote finish shown.

Wireless open/closed sensors are available. Visit andersenwindows.com/connect to learn more.

*Products with dark bronze, black and Sandtone interiors have matching exteriors.

Printing limitations prevent exact replication of colors and finishes. See your Andersen supplier for actual color and finish samples.
**GLASS OPTIONS**

Andersen has the glass you need to get the performance you want with options for every climate, project and customer. Check with your Andersen supplier for the selections that meet ENERGY STAR® requirements in your area.

**GLASS**

Center of glass performance only. Ratings based on glass options as of March 2019. Visit andersenwindows.com/energystar for ENERGY STAR® map and NFRC total unit performance data.

**ENERGY**

- U-Factor: How well a product prevents heat from escaping.
- Solar Heat Gain Coefficient: How well a product blocks heat caused by sunlight.
- UV Protection: How well a product blocks ultraviolet rays.

**LIGHT**

Additional glass options are also available. Visit andersenwindows.com/glass or see your Andersen supplier.

**ADDITIONAL GLASS OPTIONS**

Tempered safety glass is available and is standard on gliding patio doors. Sound reducing glass options are also available. Patterned glass lets in light while obscuring vision and adds a unique, decorative touch to your home.

**INSECT SCREEN OPTIONS**

Insect screens for windows and patio doors have a fiberglass screen mesh. Optional TruScene® insect screens for windows are made with a micro-fine stainless steel mesh, providing 50% more clarity than our conventional insect screens.
GRILLE OPTIONS

Customize the look of your windows and patio doors with a variety of grille options to complement virtually any style of home.

CONVENIENT CLEANING OPTIONS

Finelight™ grilles-between-the-glass are installed between the glass panes to make glass easy to clean. With an elegant, sculpted profile and a two-sided color scheme, they match both the interior and exterior of the window or door. Finelight grilles-between-the-glass with exterior grilles make interior glass easier to clean, while permanent exterior grilles provide architectural style and detail.

FULL DIVIDED LIGHT

Permanently applied to the interior and exterior of your window with a spacer between the glass for an authentic look.

SIMULATED DIVIDED LIGHT

Permanent grilles on the exterior and interior with no spacer between the glass.

Grille Patterns

Colonial™  Prairie A  Short Fractional™  Tall Fractional™  Victorian  Simulated Single-Hung  Specified Equal Light™

Grille Bar Widths

3/4”  1”

Grille width for windows is 3/4”. Grille width for patio doors is 1”. A 2 1/8” simulated meeting rail is available for casement windows to replicate the look of single-hung windows. Actual size shown.

* Modified pattern also available.
** Specify number of same-size rectangles across or down.
THE ENVIRONMENT HAS A BUSINESS PARTNER

Respect for the environment is nothing new at Andersen. For more than a century, it’s been part of who we are. Our commitment to recycle and reclaim materials began simply because it was good business. Now it’s part of our broader commitment to sustainability and responsible stewardship of all our resources. Andersen is committed to providing you with long-lasting, energy-efficient windows and doors. Visit andersenwindows.com/sustainability for more information.

Andersen makes windows and doors with options that make them ENERGY STAR® v. 6.0 certified throughout the U.S.

Andersen is a charter member of the U.S. Green Building Council and a strong supporter of its LEED® (Leadership in Energy and Environmental Design) National Green Building Standard rating system.
