E-SERIES WINDOWS & PATIO DOORS

E-Series windows and patio doors are made to your exact specifications for unmatched flexibility and design freedom. These premier products allow you to create custom shapes, dramatic sizes and striking combinations to set your work apart. 50 standard exterior colors, custom colors and anodized finishes, plus a range of interior wood species and beautiful interior stains. Or, if your customers want something even more distinctive, we can source virtually any wood species they desire. If it's possible, it's possible with E-Series windows and patio doors. For more information, visit andersenwindows.com/e-series.
MADE STRONG

Aluminum is a distinguishing element that enables us to offer the strength, beauty and design freedom for which E-Series products are known. Through decades of innovation, we have elevated the extruded aluminum-clad window and patio door category and perfected a made-to-order process that is unsurpassed.

STRENGTH

We harness the full strength of aluminum with heavy gauge, extruded aluminum-clad wood sash and frames. Our thick cladding offers greater structural capabilities than thinner, roll-form aluminum, while providing a superior exterior finish that resists the elements of inclement weather, abrasion and impact.*

DURABILITY

Our aluminum cladding withstands nature’s toughest elements — the extrusions slide onto the wood and are secured independently, allowing both wood and aluminum to expand and contract naturally. Our products are engineered to open, close, support, swing or slide reliably day after day.*

BEAUTY

Aluminum offers a smooth finish and versatility in design that enables us to create windows and doors with distinctive character and unparalleled beauty. It provides an essential foundation for our quality, baked-on silicone polyester finish, and it enables us to offer a broad array of unique accessory metals to create or recreate the architectural style you need. And beauty doesn’t stop on the outside — we give you the design freedom you need to create a look of distinction both inside and out.

VERSATILITY

Aluminum’s strength and versatility allow us to offer beautiful made-to-order design solutions for practically any combination of shapes and styles you can imagine. We offer dozens of exterior accessory metals to match any architectural style, and our colorful 2-, 3- and 4-tone exteriors truly broaden your creative palette.

Visit andersenwindows.com/warranty for details.
ENERGY-SAVING GLASS FOR ANY CLIMATE

Andersen makes windows and patio doors with options that make them ENERGY STAR® v. 6.0 certified throughout the United States. Visit andersenwindows.com/energystar for more information and to verify that the product with your glass option is ENERGY STAR certified in your area.

PROTECTION FOR COASTAL AREAS

E-Series windows and patio doors with Stormwatch® Protection meet building code requirements in many Gulf and Atlantic coast states. See your local building code official for specific requirements. Visit andersenwindows.com/coastal for more information.

LOW-MAINTENANCE EXTERIORS

Baked-on silicone polyester enamel exteriors offer virtually maintenance-free performance and durability. They’re warranted for 10 years against chalking and color change and for 20 years against cracking, checking, peeling, flaking, blistering and loss of adhesion.*

BUILT FOR YEARS TO COME

Our renowned Owner-2-Owner® limited warranty is fully transferrable and not prorated, making it one of the best coverage plans available — which means it can add resale value for your customers. It’s also supported by the industry’s largest service network.*

*Visit andersenwindows.com/warranty for details.
CONTEMPORARY STYLE

Modern home styles incorporate clean lines, simple forms and open floor plans. They often feature floor-to-ceiling windows or doors with narrow profiles to maximize light and view, have multiple units arranged in rectangular groupings and use dark colors or metal finishes. E-Series products are available in these options to let you create a contemporary style.

CONTEMPORARY DESIGNS
Dark colors and narrow profile options on windows, patio doors and even grille options offer a truly contemporary style.

BEAUTY
Durable, stainless steel FSB® hardware features clean lines in a satin finish for a thoroughly modern look. See FSB hardware options on page 29.

SLEEK INTERIORS
High-quality, factory-applied interior finishes offer convenience along with beauty. For a modern look, choose a black or anodized silver painted interior.

BRING YOUR VISION TO LIFE
Andersen has done extensive research into many architectural styles and how windows and patio doors play a critical role in achieving them. We’ve compiled it all into our Home Style Library. Whether you’re looking for a modern home style or something more traditional, our library shows how easily you can achieve each style with our Andersen® products. To view our complete Home Style Library, visit andersenwindows.com/stylelibrary

"FSB" is a registered trademark of Franz Schneider Brakel GmbH & Co.
UNLIMITED COMBINATIONS

E-Series windows and patio doors are made to your exact design specifications. Because we make your window or door especially for you, and since our options are virtually limitless, you have the advantage of combining shapes, sizes and styles for new construction or remodeling applications.

BUILDING BLOCKS

Our complete window and door styles are your building blocks for making any architectural statement. We give you the products and the design freedom you need to create the perfect solution for your project whether residential or commercial, new construction or remodeling. Unique shapes in varying combinations create focal points that become defining architectural elements.

SIZING OPTIONS

We believe you shouldn’t have to settle for “close enough.” Our made-to-order process enables us to make your windows and doors to the specific size you need. So when you go from inspirational sketch to architectural drawing, know that we will fulfill your design needs. We provide a thorough range of sizes for most applications and offer custom sizing anytime you need it.
UNLIMITED EXTERIORS

Color enhances your design and is a vital element of every architectural style. We believe it shouldn’t have to cost more which is why our 50 exterior colors, an industry-leading modern palette, are available at no additional cost. Add to that our 2-, 3- and 4-tone exteriors and set your E-Series windows and doors apart from the rest.

If your inspiration comes from an autumn leaf, a river-washed stone, a glass of fine wine or even a classic car, we will bring it to life with our custom color capabilities. And for a look of distinction, we offer seven spectacular anodized finishes that truly shine.
50 EXTERIOR COLORS

Our exclusive line of exterior colors offers a broad spectrum of quality, baked-on, silicone polyester enamel exteriors that meet AAMA 2604 specification. AAMA 2605 color compliance is also available. Our limited warranty covers exteriors for 10 years against chalking and color change and 20 years against cracking, checking, peeling, flaking, blistering and loss of adhesion.

EXTERIOR COLORS

* AAMA 2605 finishes are available in any of our 50 colors or select a custom color of your choice.
** Visit andersenwindows.com/warranty for details.
Printing limitations prevent exact color and finish replication. See your Andersen supplier for actual color and finish samples.
CUSTOM COLORS

While our large selection of exterior colors covers a lot of ground, inspiration comes in infinite hues. Let us match a paint chip, a photograph, a favorite work of art to bring your dream color into the light of day.

2-, 3- AND 4-TONE EXTERIORS

With our 2-, 3- and 4-tone color combinations, the sky’s the limit. Mix and match up to four of our 50 exterior colors on the frame, sash, exterior trim and grilles for a combination look that’s all your own.

Country Blue and Stormy Blue

Sage, Moss and Canvas

Printing limitations prevent exact color duplication. See your Andersen supplier for actual color samples.
A RANGE OF INTERIORS

Natural wood adds character to your design and defines a room’s character while creating a warm, comfortable space that leaves a lasting impression. We offer distinctive wood varieties, custom wood species and interior stain and paint options to meet your design needs.
DISTINCTIVE WOOD SELECTIONS

Our distinctive woods add uncommon flair to any room. Each option has its own character, grain and staining capabilities, so you can select one that makes your windows stand out or one that blends seamlessly with your interior décor.

INTERIOR WOOD SPECIES

Pine  Mixed Grain Douglas Fir  Oak  Maple  Hickory  Mahogany*  Cherry  Walnut  Vertical Grain Douglas Fir  Alder

CUSTOM WOOD INTERIORS

If a unique wood species is required to complete your project, we will try to source any variety that meets our production standards and your needs.

*Actual wood species is either Sapele or Sipo, both non-endangered species grown in Africa, with color and characteristics similar to Central American mahoganies.

Wood species shown are unfinished.

Naturally occurring variations in grain, color and texture of wood make each window one of a kind.

We cannot guarantee consistency in wood grain and/or color within a particular species, product or project.
VARIETY OF INTERIOR FINISHES

Our high-quality, factory-applied stains offer you convenience along with beauty. Before staining, each wood component is treated with a preservative and insect repellent and dried thoroughly. We apply two coats of polyurethane for a long-lasting, durable finish, and because every exposed edge is stained before the window is assembled, you get a complete, consistent finish. Choose from nine stain colors. If you prefer a painted interior, choose one of our painted or primed options.

STAINED INTERIOR OPTIONS

![Stain Options](image)

All stained interior finish options are shown on pine.

PAINTED INTERIOR OPTIONS

![Paint Options](image)

Painted interior options are available on pine.
Dark bronze and black also available on maple.
Anodized silver available on maple only.

CUSTOM STAINS, PAINTS & COLOR MATCHING

When only a specific tint will do, we will create one for you, matching existing woodwork, interior furnishings or other items for just the right finish to your design.

*Visit andersenwindows.com/warranty for details.
Please note that custom finishes and primed option require additional finishing. Some nail and staple holes may need to be filled prior to applying the final finish.
Printing limitations prevent exact finish and color replication. See your Andersen supplier for actual finish and color samples.
EXTERIOR & INTERIOR TRIM OPTIONS

Details take your project from ordinary to extraordinary. The perfect finishing touches make every window and patio door an irreplaceable part of any home or commercial building. We offer the trim and accessory metals that make the final details of your project easier to complete and more beautiful to look at.

EXTERIOR TRIM

Designed to add depth and traditional appeal, our exterior trim options extend outward from the window or door frame, casting a shadow line consistent with true historical applications. Choose from our extended selection of flat and profiled casings, brick mould casings and sill nose. Match or contrast the trim with your windows and doors in any of our 50 exterior colors, custom colors and anodized finishes.

INTERIOR TRIM COMPONENTS

Extension Jambs

Pre-installed, dimensional extension jambs save time on jobsites and help enable a perfect installation. Available in all wood species, extension jambs can accommodate a wide variety of wall conditions.

Wood Casing

A subtle touch around the perfect window or door makes your view even more special. Choose from four different casings and add plinth blocks at the corners for just the right touch of detail.

Drywall Returns

We offer drywall returns in three depths: $\frac{11}{16}”, \frac{9}{8}”$ and $\frac{7}{8}”$
UNLIMITED VIEWS

Whether your design demands performance, clarity or architectural detail, we have the glass and divided light solutions to make your views spectacular. For performance needs in a variety of environments, we offer a multitude of glass options, including our High-Performance Low-E4® glass and our exclusive Stormwatch® impact-resistant product systems for severe weather conditions.*

And for visual impact, made-to-order decorative glass and grilles give you infinite possibilities, so your design will be as original as your inspiration.

*See your local code official for building code requirements in your area.
GLASS OPTIONS

We offer a multitude of glass options to meet all of your design needs. Whether you’re in need of energy efficiency or resistance to harsh weather conditions, we provide the solutions for you.

Low-E4® Glass, our standard glass option, provides excellent insulation from heat and cold. Compared to ordinary dual-pane glass, High-Performance Low-E4 glass is up to 44% more energy efficient in winter and up to 57% more efficient in summer. Or consider Sun glass with its soft, glare-controlling tint.

Low-E4 Passive Sun® Glass is a great solution for colder climate zones where higher heat gain is desired. It allows a higher amount of the sun’s heat to pass into the home, making it an ideal solution for passive solar applications.

Low-E4 SmartSun™ Glass combines performance with clarity — letting more light in and keeping more heat out. It blocks 95% of the sun’s damaging ultraviolet rays. Enjoy the performance benefits of tinted glass without the loss of visibility.

Triple-Pane Glass with three panes of glass, combined with Low-E coatings, can provide enhanced energy performance. Adding triple-pane glass can produce a lower U-Factor than using regular dual-pane glass.

HeatLock® Technology can increase the energy efficiency of any E-Series window or door with Low-E4 or SmartSun glass. Applied to the room-side glass surface, it reflects heat back into the home and improves U-Factors, which can help the window or door meet ENERGY STAR® requirements.

Laminated Glass offers sound protection, forced entry and impact resistance. It reduces unwanted outside noise, making it ideal for locations like airports and high-volume traffic areas.

Decorative & Specialty Glass options are also available. See our decorative glass collection at andersenwindows.com/artglass or combine beveled, frosted, grooved, colored or textured glass with three caming options to create your own design. Specialty glass includes tinted glass, spandrel glass and Mapes panels as well as rain, reeded and obscure glass options.

A removable translucent film shields glass from damage and simplifies finishing and cleaning on the jobsite.

Center of glass performance only. Ratings based on glass options available as of January 2019. Visit www.andersenwindows.com/energystar for ENERGY STAR® map and NFRC total unit performance data.

*ENERGY STAR® is a registered trademark of the U.S. Environmental Protection Agency.
STORMWATCH® PROTECTION

Designed for use in coastal areas, these systems combine monolithic or insulated laminated glass with structural enhancements to meet or exceed the stringent code requirements of ASTM and TAS testing protocols. You get the performance you need with the design options you want.

PRODUCT AVAILABILITY

Choose from a variety of coastal windows including casement, awning, double-hung** and fixed windows. Impact-resistant double-hung windows utilize two or more snuggers applied to the sill, creating a structural connection between the lower sash and frame. Simply close and lock the window and it’s ready to withstand even the toughest weather conditions.

We also offer a variety of coastal patio doors including inswing patio doors (impact-resistant insulated glass options only), outswing patio doors and French gliding patio doors. Surface bolts are required for impact certification of double doors.

Plus, you can select any of our 50 exterior colors, anodized finishes or custom colors. Choose from a variety of wood species, interior finishes, hardware, grille options, VeriLock® sensors and more. The only options not available on coastal products are decorative glass, blinds and shades.

PERFORMANCE & DURABILITY

Impact-resistant glass provides windborne debris protection, reduced sound transmission and burglar resistance.

Designed to satisfy:

- AAMA/WDMA/CSA 101/1.S.2/A440-08 & -11
- Large missile impact test ASTM E1886/E1996
- TAS 201, 202, 203 (excluding inswing patio doors)
- Peace of mind with 24/7 protection

Impact-Resistant Insulated Glass Options *

- Low-E
- SmartSun™
- Bronze or Gray
- Bronze/Bronze or Gray/Gray (meets Florida Turtle Code)

Impact-Resistant Monolithic Glass Options *

- Low-E
- SmartSun
- Bronze, Gray or Green
- Clear

*See your local code official for building code requirements in your area.
**Double-hung windows are only available with impact-resistant monolithic bronze, gray, green and clear glass options.
†E-Series Casement 3060 HP Impact DP+65/-75 (AAMA/WDMA/CSA 101/1.S.2/A440-08 & -11). For more information, visit andersenwindows.com/e-series.
ARCHITECTURALLY AUTHENTIC GRILLES
We offer a variety of grille styles and patterns to choose from, or design your own with varying lines, curves and shapes.

FULL DIVIDED LIGHT (MODERN DIVIDED LIGHT)
Give any window an authentic look with full divided light grilles that are permanently applied to the interior and exterior of your window with a spacer between the glass. Available in ovolo (colonial) and contemporary profiles.

SIMULATED DIVIDED LIGHT (CLASSIC DIVIDED LIGHT)
An economical solution with traditional beauty, our simulated divided light features fixed exterior and interior grilles without an internal spacer. Available in ovolo and contemporary profiles.

Profiles and Widths – Interior Grilles

Profiles and Widths – Exterior Grilles

REMOVABLE INTERIOR WOOD GRILLES
Our removable wood grilles are installed on the interior surface. They are available with an optional surround and an optional permanently applied exterior grille. Available in ovolo and contemporary profiles.

Profiles and Widths

FINELIGHT™ GRILLES-BETWEEN-THE-GLASS
Aluminum grilles conveniently placed between two panes of glass make the glass easy to clean inside and out.

Profiles and Widths

5/6" Color Options
- Colony White
- Sierra Bronze
- Pebble Tan
- Forest Green

1" Color Options
- Sierra Bronze/Colonial White
- Pebble Tan/Colonial White
- Forest Green/Colonial White

Choose from our broad palette of 50 colors or select from the two-tone paint combinations shown above.
DESIGN YOUR OWN GRILLES

We offer a variety of grille patterns to choose from, or design your own with varying lines, curves and shapes to create a truly unique pattern.
SCREEN OUT THE INSECTS, NOT THE VIEW

E-Series insect screens let the beauty of the outdoors in, while keeping even small insects out. Choose from a wide selection of insect screen styles, including options that blend seamlessly with your window.

TRUSCENE® INSECT SCREENS*

TruScene insect screens for windows are made with a micro-fine stainless steel mesh that offers 50% more clarity than our conventional aluminum mesh insect screens. TruScene insect screens let in more fresh air and sunlight and keep small insects out.

WOOD VENEER INSECT SCREENS

For a clean appearance, E-Series interior window insect screens can feature a wood veneer to blend into your window.

RETRACTABLE INSECT SCREEN FOR PATIO DOORS**

This insect screen is built with an innovative color-matched aluminum housing that hides the insect screen when not in use. It’s there when you need it and gone when you don’t.

RETRACTABLE INSECT SCREENS FOR WINDOWS AND PATIO DOORS

Retractable insect screens for casement and awning windows offer a sleek addition to any home. In place, the insect screen keeps insects out. When retracted, it provides a beautiful clear view.

For patio doors,** retractable insect screens are built with an innovative color-matched housing that hides the insect screen when not in use. It’s there when you need it and gone when you don’t.

HINGED INSECT SCREEN

Available for hinged inswing patio doors, this solid insect screen offers a full-door view and features a lockable latch and automatic closer.

TOP-HUNG GLIDING INSECT SCREEN FOR PATIO DOORS

Open your room to the outdoors with the touch of a finger. Our top-hung gliding insect screen provides smooth and reliable operation, season after season.†

---

*TruScene wood-veneered insect screens utilize a different frame profile than other E-Series wood-veneered insect screens.

** Retractable insect screens are available on inswing, outswing and gliding patio doors. See your Andersen supplier for details.

†Visit andersenwindows.com/warranty for details.

All comparisons are made to conventional E-Series aluminum insect screens.
**BETWEEN-THE-GLASS BLINDS & SHADES**

What could be more convenient than blinds or shades between the panes of glass? Minimal cleaning and no worry about damage. It's simply a fitting way to put privacy at your fingertips. E-Series blinds and shades offer the ultimate in practicality for both residential and commercial applications.

**BLINDS-BETWEEN-THE-GLASS**

E-Series blinds-between-the-glass can be installed in many of our patio doors and rectangular picture windows. Placed between the two panes of glass away from dust, dirt and damage, you get the benefit of energy efficiency and privacy control and convenience of blinds.

*Tilt, raise and lower with one control cord.*

**SYSTEM 3 BLINDS & SHADES**

Add privacy and even greater energy efficiency with this low-maintenance blind or shade solution. Applied to the interior of the sash, the System 3 design creates a triple-glazed window for incredible energy efficiency. Our 3/4" blinds and pleated shades are available for casement, awning and picture windows, plus hinged patio doors, and are mounted to an extruded aluminum storm panel and applied to the interior of the sash. The removable storm panel is available in tan, gold, white or wood veneer.

*Not all sizes of blinds-between-the-glass are retractable.
Printing limitations prevent exact color duplication. See your Andersen supplier for actual color samples.

THE SMARTEST TECHNOLOGY FOR THE SMARTEST HOMES

Andersen® E-Series windows and doors can now be part of today’s connected home. Monitor the status of your windows and patio doors anytime and from anywhere with our sensor options. Plus, our new Yale® Assure Lock®, shown on page 29, lets you remotely lock or unlock your hinged patio doors.* Learn more about the convenience and peace of mind Andersen smart home products offer at andersenwindows.com/connect.

VERILOCK® SECURITY SENSORS

With the most advanced technology in the industry, VeriLock security sensors not only indicate whether windows and patio doors are open or closed, they even indicate if they are locked or unlocked.* No other sensor can do that.

**Maintains Warranty** — No drilling required which can void warranties.

**Helps Maximize Energy Efficiency** — Windows that are closed but unlocked lose air at a rate up to 3X that of a closed and locked window.** VeriLock sensors tell you which windows and patio doors are open or unlocked* so you can help manage air loss.

**Preserves Beauty** — Available in a variety of colors to complement many Andersen hardware or interior finishes.

WIRELESS OPEN/CLOSED SENSORS

These wireless sensors provide the peace of mind of knowing whether your windows and patio doors are open.

**Easy Installation** — No tools are required to install our sensors. Simply place the sensor on a window or patio door and line up the magnet with the sensor until the LED glows blue.

**Maintains Warranty** — No drilling required which can void warranties.

**Compact Design** — Sleek, compact design in a variety of colors to blend in with the window or patio door.

*When properly configured and maintained with a professionally installed security system and/or self-monitoring system compatible with Honeywell® 5800 controls. See your Andersen supplier for more information.

**Based on testing of thirty-two (32) A-Series double-hung windows. Air loss through unlocked windows will vary based on window type and age, pressure differential, temperatures inside and outside the home, altitude and application.

†See product installation for details.

Printing limitations prevent exact color duplication. See your Andersen supplier for actual color samples.
PATIO DOOR HARDWARE

E-Series patio door hardware is available in a variety of different designs to match virtually any style. Yuma®, Encino®, Anvers®, Newbury®, Covington™ and Whitmore® hardware options feature solid drop-forged brass for added strength, while Albany and Tribeca® hardware options are made of zinc die cast with durable powder-coated finishes.

Hardware sold separately.
Distressed bronze and oil rubbed bronze are “living” finishes that will change with time and use.
Bright brass and satin nickel finishes on patio door hardware feature a 10-year limited warranty.
Printing limitations prevent exact finish replication. See your Andersen supplier for actual finish samples.

ENVIRONMENTAL RESPONSIBILITY

It is more essential than ever that we all do our part to help protect the environment. While environmental responsibility may be new to some, to us, making environmentally responsible manufacturing decisions is nothing new. We’ve made responsible choices in the past and will continue to strive to be responsible in the future.

PRESERVING NATURE

To protect our natural resources, we use wood harvested from managed forests and leverage engineered wood technology whenever possible — we use finger-jointed wood and laminated veneer lumber, both of which use wood efficiently and result in superior performance. In addition, we use water-based finishes, which have less impact on the environment than oil-based products.

CONSERVING ENERGY

Our technology and design innovation creates greater energy efficiency in all our products. Our High-Performance Low-E4® glass provides superior thermal protection, helping significantly reduce heating and cooling requirements. Additional energy-efficient glass options include triple-pane glass and SmartSun™ glass. Combined with weathertight frames, sash and weatherstrip, E-Series windows and doors play an important role in energy conservation.

REDUCING WASTE

We recycle whenever possible — office paper, corrugated cardboard, sawdust, scrap aluminum, paints and solvents. Our electrostatic paint system attracts the paint to the aluminum, creating an efficient use of materials. Packaging enhancements include frame protectors made of HDPE, a recyclable plastic.

TAKING AN ACTIVE ROLE

We work closely with the industry organizations shown to manufacture energy-efficient and environmentally responsible products.

ENVIRONMENTAL CERTIFICATIONS

E-Series windows and doors have received SCS Global Services (SCS) Indoor Advantage™ Gold certification for indoor air quality. Indoor air quality is an important issue because many people spend as much as 90% of their time indoors, either at home, work or school.

USING RECLAIMED MATERIALS

Our cladding contains pre-consumer reclaimed aluminum, which requires much less energy to process than virgin aluminum. In addition, our glass utilizes reclaimed glass, which reduces landfill waste.

*Winter and summer values are based on comparison of E-Series 3866 double-hung window U-Factor to the U-Factor for clear dual-pane glass non-metal frame default values from the 2006, 2009, 2012, 2015 and 2018 International Energy Conservation Code “Glazed Fenestration” Default Tables. All marks where denoted are trademarks of their respective owners.
CASEMENT WINDOWS

Simple, beautiful and extremely functional, this casement window offers enhanced energy performance. Plus, stainless steel hinges and tracks that open to 90° for great ventilation and easy cleaning. In addition, a single-lever, multi-point locking mechanism with minimally exposed hardware offers a sleek, modern look.
CASEMENT WINDOW

FEATURES

CASEMENT WINDOWS

FRAME & SASH

A Select wood components are kiln dried and treated with water/insect repellent and preservative. Interior wood surfaces are available in pine, mixed grain Douglas fir, cherry, hickory, mahogany, maple, oak, walnut, alder or vertical grain Douglas fir. Interior surfaces are available unfinished or factory primed. Factory-applied finishes are available in a variety of stain and paint options.

B Wood components are fitted with aluminum extrusions on the exterior. 50 exterior colors that meet AAMA 2604 and 2605 specifications are available, as well as custom colors. Also available is a selection of seven exterior anodized options. Integral, butyl-backed corner keys provide a positive, tight seal.

C Vinyl installation flanges are pre-applied into a kerf on the frame exterior to facilitate installation. Optional aluminum flanges and metal installation clips are available.

D A Fibrex® material thermal barrier encompasses the interior perimeter of the frame and is a neutral beige color.

E A continuous perimeter bulb weatherstrip around the frame is positioned on the Fibrex material thermal barrier and provides solid surface contact with the sash. A secondary bulb weatherstrip is applied on three sides of the sash into a stand-alone kerf on the aluminum extrusion. Available in white or optional black.

F Glass is fixed in place from the interior with wood stops that can be removed for easy reglazing if necessary. Glass stops available in ovolo (colonial) and contemporary profiles.

GLASS

High-Performance Low-E4® glass with a low-conductivity spacer. Triple-pane glass, tinted, clear dual-pane, high-altitude glass and other special glazing options are available.

Hardness

Equipped with a stainless steel gear operator, concealed hinges and hinge track. Arch casement units use stainless steel piano hinges.

Locks, handles and operator covers are available in 10 finishes and can be shipped separately prior to job completion.

HARDWARE OPTIONS

HARDWARE FINISHES

Antique Brass | Bright Chrome | Black | Bronze | Gold

Oil Rubbed Bronze | Pewter | Polished Brass | Satin Chrome | White

Bold name denotes finish shown.

Sash Locks

Concealed sash locks [multi-point on units taller than 2’-8”) provide a positive lock by operating one convenient lever. Stainless steel keepers resist corrosion.” Available in finishes to match operator handles.

EXTERIOR & INTERIOR OPTIONS

EXTERIOR COLORS

50 exterior colors, 7 anodized finishes and custom colors. See exterior colors on page 11.

INTERIOR WOOD SPECIES

Pine | Mixed Grain | Douglas Fir | Oak | Maple | Hickory | Mahogany | Cherry | Walnut | Vertical Grain | Douglas Fir | Alder

FACTORY-FINISHED INTERIORS

Clear Coat | Wheat | Autumn Oak | Golden Hickory | Honey | Cinnamon | Russet | Mocha | Espresso

INTERIOR PAINTED OPTIONS

White | Birch Bark | Primed (for paint) | Canvas | Sandtone | Terratone | Forest Green | Dark Bronze | Dove Gray | Prairie Grass | Red Rock | Cocoa Bean | Black | Anodized Silver

*Actual wood species is either Sapele or Sipo, both non-endangered species grown in Africa, with color and characteristics similar to Central American mahoganies.

**Visit andersenwindows.com/warranty for details.

Printing limitations prevent exact replication of colors and finishes. Please see your Andersen supplier for actual color and finish samples.
**HARDWARE**

*Power Operator*

Power operators are available in bronze, white, black, or gold.

*Window Opening Control Device Kit*

An optional Window Opening Control Device Kit is available, which limits opening the sash to less than 4" when the window is first opened. Available in stone and white.

*Construction Hardware*

Construction locks and operator handles keep your permanent window hardware away from the construction process and possible damage yet allow operation of windows during construction.

**SENSORS**

*VeriLock® Security Sensors*

VeriLock sensors are unique as they detect whether the windows are locked or unlocked* — a feature no other sensors can provide. See page 27 for Smart Home options.

*Open/Closed Sensors*

Wireless open/closed sensors are available in four colors. See page 27 for details.

**PRIVACY OPTIONS**

*System 3 Blinds*

A 5⁄8" aluminum slat blind is mounted to an extruded aluminum blind panel and applied to the window, creating a triple-glazed window boasting privacy and energy efficiency. Available in three colors. Blind panels are offered in white, tan, gold, or an optional wood veneer to match your interior.

*System 3 Shades*

Pleated fabric shades are available in four colors to effortlessly and beautifully filter the light. See page 25 for more details.

*Insect Screens*

*Conventional Insect Screens*

Charcoal fiberglass screen mesh fits into an aluminum frame in colors of bronze, white, or gold as well as optional black. Aluminum screen mesh and wood-veneered insect screen also available as options.

*TruScene® Insect Screens*

TruScene insect screens available in painted aluminum or wood-veneered options.

*Retractable Insect Screens*

Retractable insect screen available in wood-veneered options. See page 24 for more information on our insect screen options.

*GRILLES*

**Full Divided Light**

Permanent interior and exterior grilles with grille spacer bars between two panes of glass. Available in 5⁄8", 7⁄8", 1 1⁄8", 1 1⁄2", or 2 1⁄4" widths. Interior grilles are available with ovolo or contemporary profile (ovolo profile shown below). Not all widths are shown.

**Simulated Divided Light**

Permanent exterior and interior grilles without grille spacer bars. Available in 5⁄8", 7⁄8", 1 1⁄8", 1 1⁄2", or 2 1⁄4" widths. Interior grilles are available with ovolo or contemporary profile (ovolo profile shown below). Not all widths are shown.

**Finelight™ Grilles-Between-the-Glass**

Available in 5⁄8" flat or 1" contoured aluminum profiles. Two-tone colors of pebble tan/colony white, sierra bronze/colony white, or forest green/colony white are available on the 1" profile.

**Removable Interior Wood Grilles**

Removable interior wood grilles are available in a 5⁄8" width and ovolo or contemporary profiles. Optional surround for removable grille and permanent exterior grilles also available.

*When properly configured and maintained with a professionally installed security system and/or self monitoring system compatible with Honeywell® 5800 controls. See your Andersen supplier for more information.*

FOR WINDOWS GREATER THAN 30 SQUARE FEET OR RATED HIGHER THAN PG50, ONE OF THESE THREE INSTALLATION METHODS IS REQUIRED:

A) THROUGH THE JAMB
B) ALUMINUM INSTALLATION FLANGE
C) INSTALLATION CLIPS.

ADDITIONAL CUSTOM SIZES ARE AVAILABLE. CONTACT YOUR LOCAL SUPPLIER FOR MORE INFORMATION. DRAWINGS ARE NOT TO SCALE.

Casement Window Sizes

NOTES
† These units meet or exceed the following dimensions: Clear Opening Area 5.7 sq. ft., Clear Opening Width 20”, Clear Opening Height 24” and 44” maximum floor to sill height (with standard 6’10-1/2” structural header height).
†† Units meet the stated dimensions above when optional hardware for widest clear opening is used.
* A sash-limiting device is standard on 2856 and 3050 casement units. See your local code official for requirements in your area.
** A piano hinge and sash limiting device is standard on 2860, 3056 and 3060 casement units.

If glass is positioned within 18” of the finished floor, safety/tempered glass may be required. Local codes may differ. Verify tempered glass requirements with your local building code official.

Use structural joining material when necessary or required by code.

The light patterns illustrated apply to rectangular removable interior wood grilles, Full Divided Light, Simulated Divided Light, Decorelle 100, 150 and 400 and Finelight™ Grilles-Between-the-Glass. All removable interior wood grilles will be installed in the units unless otherwise specified.

For a metric conversion in millimeters, multiply dimensions in inches by 25.4.

FORMULA FOR COMBINATION WINDOWS

The overall frame dimension (both width and height) is equal to the sum of the individual unit frame dimensions plus joining material dimension(s).

The overall rough opening (both width and height) is equal to the overall frame dimensions plus 1/4” on all sides.

Any unit within each combination can be operating or stationary.

FOR WINDOWS GREATER THAN 30 SQUARE FEET OR RATED HIGHER THAN PG50, ONE OF THESE THREE INSTALLATION METHODS IS REQUIRED:
A) THROUGH THE JAMB  B) ALUMINUM INSTALLATION FLANGE  C) INSTALLATION CLIPS.
ADDITIONAL CUSTOM SIZES ARE AVAILABLE. CONTACT YOUR LOCAL SUPPLIER FOR MORE INFORMATION. DRAWINGS ARE NOT TO SCALE.

AWNING WINDOWS

Used alone or as an accent window, E-Series awning windows add visual interest and ventilation. Plus, they are easy to clean from the inside, while still offering a weathertight seal for outstanding performance. They include stainless steel hardware with the operator located on the sill for a true awning style and feature the same sight lines as our casement window for design flexibility when creating large window combinations.
**AWNING WINDOW**

### FEATURES

#### AWNING WINDOWS

**FRAME & SASH**

A. Select wood components are kiln dried and treated with water/insect repellent and preservative. Interior wood surfaces are available in pine, mixed grain Douglas fir, cherry, hickory, mahogany*, maple, oak, walnut, alder or vertical grain Douglas fir. Interior surfaces are available unfinished or factory primed. Factory-applied finishes are available in a variety of stain and paint options.

B. Wood components are fitted with aluminum extrusions on the exterior. 50 exterior colors that meet AAMA 2604 and 2605 specifications are available, as well as custom colors. Also available is a selection of seven exterior anodized options. Integral, butyl-backed corner keys provide a positive, tight seal.

Vinyl installation flanges are pre-applied into a kerf on the frame exterior to facilitate installation. Optional aluminum flanges and metal installation clips are available.

C. A Fibrex® material thermal barrier encompasses the interior perimeter of the frame and is a neutral beige color.

D. A continuous perimeter bulb weatherstrip around the frame is positioned on the Fibrex material thermal barrier and provides solid surface contact with the sash.

E. A secondary bulb weatherstrip is applied on three sides of the sash into a stand-alone kerf on the aluminum extrusion. Available in white or optional black.

**GLASS**

F. Glass is fixed in place from the interior with wood stops that can be removed for easy reglazing if necessary. Glass stops available in ovolo (colonial) and contemporary profiles.

**HARDWARE**

G. Equipped with a stainless steel gear operator, concealed hinges and hinge track. Locks, handles and operator covers are available in 10 finishes and can be shipped separately closer to job completion.

Concealed sash locks provide a positive lock. Stainless steel keepers resist corrosion.** Available in finishes to match operator handles.

AWNING WINDOWS

HARDWARE

Power Operator

Power operators are available in bronze, white, black or gold.

Window Opening Control Device Kit

An optional Window Opening Control Device Kit is available, which limits opening the sash to less than 4" when the window is first opened. Available in stone and white.

Construction Hardware

Construction locks and operator handles keep your permanent window hardware away from the construction process and possible damage yet allow operation of windows during construction.

SENSORS

VeriLock® Security Sensors

VeriLock sensors are unique as they detect whether the windows are locked or unlocked* — a feature no other sensors can provide. See page 27 for Smart Home options.

Open/Closed Sensors

Wireless open/closed sensors are available in four colors. See page 27 for details.

PRIVACY OPTIONS

System 3 Blinds

A ⅜” aluminum slat blind is mounted to an extruded aluminum blind panel and applied to the window, creating a triple-glazed window boasting privacy and energy efficiency. Available in three colors. Blind panels are offered in white, tan, gold or an optional wood veneer to match your interior.

System 3 Shades

Pleated fabric shades are available in four colors to effortlessly and beautifully filter the light. See page 25 for more details.

INSECT SCREENS

Conventional Insect Screens

Charcoal fiberglass screen mesh fits into an aluminum frame in colors of bronze, white or gold as well as optional black. Aluminum screen mesh and wood-veneered insect screen also available as options.

TruScene® Insect Screens

TruScene insect screens available in painted aluminum or wood-veneered options.

GRILLES

Full Divided Light

Permanent interior and exterior grilles with grille spacer bars between two panes of glass. Available in ⅜”, ⅝”, 1⅛”, 1 ⅜”, or 2 ⅛” widths. Interior grilles are available with ovolo or contemporary profile (ovolo profile shown below). Not all widths are shown.

Simulated Divided Light

Permanent exterior and interior grilles without grille spacer bars. Available in ⅜”, ⅝”, 1⅛”, 1 ⅜”, or 2 ⅛” widths. Interior grilles are available with ovolo or contemporary profile (ovolo profile shown below). Not all widths are shown.

Retractable Insect Screens

Retractable insect screen available in wood-veneered options.

See page 24 for more information on our insect screen options.

Finelight™ Grilles-Between-the-Glass

Available in ⅜” flat or 1” contoured aluminum profiles. Two-tone colors of pebble tan/colony white, sierra bronze/colony white or forest green/colony white are available on the 1” profile.

Removable Interior Wood Grilles

Removable interior wood grilles are available in a ⅜” width and ovolo or contemporary profiles. Optional surround for removable grille and permanent exterior grilles also available.

See page 22 for more information on grilles.

E-Series

AWNING WINDOWS

**When properly configured and maintained with a professionally installed security system and/or self monitoring system compatible with Honeywell® 5800 controls. See your Andersen supplier for more information.
**FEATURES**

**PUSH OUT AWNING WINDOWS**

**FRAME & SASH**

A Select wood components are kiln dried and treated with water/insect repellent and preservative. Interior wood surfaces are available in pine, mixed grain Douglas fir, cherry, hickory, mahogany, maple, oak, walnut, alder or vertical grain Douglas fir. Interior surfaces are available unfinished or factory primed. Factory-applied finishes are available in a variety of stain and paint options.

B Wood components are fitted with aluminum extrusions on the exterior. 50 exterior colors that meet AAMA 2604 and 2605 specifications are available, as well as custom colors. Also available is a selection of seven exterior anodized options.

Vinyl installation flanges are pre-applied into a kerf on the frame exterior to facilitate installation. Optional aluminum flanges and metal installation clips are available.

C A Fibrex® material thermal barrier encompasses the interior perimeter of the frame and is a neutral beige color.

D A continuous perimeter bulb weatherstrip around the frame is positioned on the Fibrex material thermal barrier and provides solid surface contact with the sash. A secondary bulb weatherstrip is applied on three sides of the sash. Available in white or optional black.

**GLASS**

E High-Performance Low-E4® glass with a low-conductivity spacer. Triple-pane glass, tinted, clear dual-pane, high-altitude glass and other special glazing options are available.

F Glass is fixed in place from the interior with wood stops that can be removed for easy reglazing if necessary. Glass stops available in ovolo (colonial) and contemporary profiles.

**HARDWARE**

Manual lock system featuring lock handles allows for easy operation. Units under 40” high use a single lock, while units 40” and taller use dual locks. Lock handles are available in five finishes.

Equipped with a stainless steel 4-bar friction hinge.

### PUSH OUT AWNING WINDOWS

#### SENSORS

VeriLock® Security Sensors

VeriLock sensors are unique as they detect whether the windows are locked or unlocked — a feature no other sensors can provide. See page 27 for Smart Home options.

#### INSECT SCREENS

**Hinged Insect Screens**

Hinged insect screen opens to the interior, providing access to the lock handle. Choose from charcoal fiberglass or aluminum screen mesh. Available in wood-veneered options. Insect screen pulls are available in antique brass, black, oil rubbed bronze, polished brass, satin chrome and white.

**Retractable Insect Screens**

Retractable insect screen available in wood-veneered options. Extension jambs required for push out awning windows with retractable insect screens. See page 24 for more information on our insect screen options.

#### GRILLES

**Full Divided Light**

Permanent interior and exterior grilles with grille spacer bars between two panes of glass. Available in 5⁄8", 3⁄4", 1 3⁄4", 1 1⁄2", or 2 1⁄4” widths. Interior grilles are available with ovolo or contemporary profile (ovolo profile shown below). Not all widths are shown.

**Simulated Divided Light**

Permanent exterior and interior grilles without grille spacer bars. Available in 5⁄8", 3⁄4", 1 3⁄4", 1 1⁄2", or 2 1⁄4” widths. Interior grilles are available with ovolo or contemporary profile (ovolo profile shown below). Not all widths are shown.

**Finelight™ Grilles-Between-the-Glass**

Available in 5⁄8” flat or 1” contoured aluminum profiles. Two-tone colors of pebble tan/colony white, sierra bronze/colony white or forest green/colony white are available on the 1” profile.

**Removable Interior Wood Grilles**

Removable interior wood grilles are available in a 7⁄8” width and ovolo or contemporary profiles. Optional surround for removable grille and permanent exterior grilles also available.

---

*When properly configured and maintained with a professionally installed security system and/or self monitoring system compatible with Honeywell® 5800 controls.

**Oil rubbed bronze is a “living” finish that will change with time and use.*
FOR WINDOWS GREATER THAN 30 SQUARE FEET OR RATED HIGHER THAN PG50, ONE OF THESE THREE INSTALLATION METHODS IS REQUIRED:

A) THROUGH THE JAMB
B) ALUMINUM INSTALLATION FLANGE
C) INSTALLATION CLIPS.

ADDITIONAL CUSTOM SIZES ARE AVAILABLE. CONTACT YOUR LOCAL SUPPLIER FOR MORE INFORMATION. DRAWINGS ARE NOT TO SCALE.

NOTES

If glass is positioned within 18" of the finished floor, safety/tempered glass may be required. Local codes may differ. Verify tempered glass requirements with your local building code official.

Use structural joining material when necessary or required by code.

The light patterns illustrated apply to rectangular removable interior wood grilles, Full Divided Light, Simulated Divided Light, Decorelle 100, 150 and 400 and Finelight™ Grilles-Between-the-Glass. All removable interior wood grilles will be installed in the units unless otherwise specified.

For a metric conversion in millimeters, multiply dimensions in inches by 25.4.

FORMULA FOR COMBINATION WINDOWS
The overall frame dimension (both width and height) is equal to the sum of the individual unit frame dimensions plus joining material dimension(s).

The overall rough opening (both width and height) is equal to the overall frame dimensions plus 1/4" on all sides.

Any unit within each combination can be operating or stationary.

PUSH OUT AWNING
Units ≥ 36" Actual Frame Height receive (2) friction stays.
PROPER INSTALLATION AND MAINTENANCE OF E-SERIES PRODUCTS IS ESSENTIAL TO ATTAIN OPTIMUM PERFORMANCE AND OPERATION. WRITTEN INSTALLATION INSTRUCTIONS THAT PROVIDE GUIDELINES FOR PROPER INSTALLATION ARE AVAILABLE BY VISITING ANDERSENWINDOWS.COM. CUSTOM SIZES ARE AVAILABLE. CONTACT YOUR LOCAL SUPPLIER FOR MORE INFORMATION. DRAWINGS ARE NOT TO SCALE.

DOUBLE-HUNG WINDOW

FEATURES

FRAME & SASH
A Select wood components are kiln dried and treated with water/insect repellent and preservative. Interior wood surfaces are available in pine, mixed grain Douglas fir, cherry, hickory, mahogany, maple, oak, walnut, alder or vertical grain Douglas fir. Interior surfaces are available unfinished or factory primed. Factory-applied finishes are available in a variety of stain and paint options.

B Wood components are fitted with aluminum extrusions on the exterior. 50 exterior colors that meet AAMA 2604 and 2605 specifications are available, as well as custom colors. Also available is a selection of seven exterior anodized options.

Optional vinyl installation flanges are pre-applied into a kerf on the frame exterior to facilitate installation. Optional aluminum flanges or metal installation clips are available.

C Compression bulb weatherstrip is applied on the bottom sash, head jamb, at the meeting rail and on side jambs for a maximum weather seal. Jamb liners encase balancer assemblies that allow each sash to be tilted 90° inward from a bottom pivot and stay securely in place for washing.

GLASS
D Double-hung jamb liners incorporate synthetic interior and exterior inserts or optional painted aluminum exterior and wood-veneered interior inserts.

E High-Performance Low-E4® glass with a low-conductivity spacer. Triple-pane glass, tinted, clear dual-pane, high-altitude glass and other special glazing options are available.

F Glass is fixed in place from the interior with wood stops that can be removed for easy reglazing if necessary. Glass stops available in ovolo (colonial) and contemporary profiles.

HARDWARE
Sash lock/tilt mechanisms and keepers give a slim, more traditional design and allow opening and tilting of the window in one operation. Tilting the sash from the inside for cleaning is effortless.

Optional surface mount sash lifts allow for easy operation. Units less than 3’ wide use one lift. Units 3’ wide and greater use two lifts.

HARDWARE OPTIONS

Antique Brass | Black | Bright Chrome | Bronze | Gold
Oil Rubbed Bronze | Pewter | Polished Brass | Satin Chrome | White

Windows with VeriLock® sensors use a different sash lock. See the next page for details.

HARDWARE FINISHES

Antique Brass | Black | Bright Chrome | Bronze | Gold
Oil Rubbed Bronze | Pewter | Polished Brass | Satin Chrome | White

Oil rubbed bronze is a “living” finish that will change with time and use.

DOUBLE-HUNG INSERT WINDOW

FEATURES

DOUBLE-HUNG INSERT WINDOWS

Double-hung insert window fits into an existing window frame making installation a breeze. The appearance of the interior and exterior of the home are maintained because the existing frame, wall coverings and trim work stay completely intact.

FRAME & SASH

A. Select wood components are kiln-dried and treated with water/insect repellent and preservative. Interior wood surfaces are available in pine, mixed grain Douglas fir, cherry, hickory, mahogany, maple, oak, walnut, alder or vertical grain Douglas fir. Interior surfaces are available unfinished or factory primed. Factory-applied finishes are available in a variety of stain and paint options.

B. Wood components are fitted with aluminum extrusions on the exterior. 50 exterior colors that meet AAMA 2604 and 2605 specifications are available, as well as custom colors. Also available is a selection of seven exterior anodized options.

C. Compression bulb weatherstrip is applied on the bottom sash, head jamb, at the meeting rail and on side jambs for a maximum weather seal.

SILL

8 degrees is the standard slope. Filler block is used on existing window sill angles of less than 8 degrees.

Jamb liners encase balancer assemblies that allow each sash to be tilted 90° inward from a bottom pivot and stay securely in place for washing.

D. Basic jamb liners are available in beige or white and are made of synthetic material. Optional painted aluminum exterior inserts and wood-veneered interior inserts also available.

GLASS

E. High-Performance Low-E4® glass with a low-conductivity spacer. Triple-pane glass, tinted, clear dual-pane, high-altitude glass and other special glazing options are available.

F. Glass is fixed in place from the interior with wood stops that can be removed for easy reglazing if necessary. Glass stops available in ovolo (colonial) and contemporary profiles.

DOUBLE-HUNG SASH REPLACEMENT KIT

FEATURES

DOUBLE-HUNG SASH REPLACEMENT KITS

Double-hung sash replacement kits are complete with window sash, locking hardware and sash lifts, compression jamb liners and balancer systems, sill filler, head parting stop and installation hardware. Each kit is built to your exact measurements. The kits were designed to replace older sash with a new energy-efficient sash without removing the trim and the window frame. The sash replacement will fit a double-hung window with a jamb pocket depth of 2 ¼" or larger. Kits are also available in a picture window design. The sash depth is 1 7/32". Picture window sash replacement kit consists of one sash and one sill filler.

SASH

A Select wood components are kiln dried and treated with water/insect repellent and preservative. Interior wood surfaces are available in pine, mixed grain Douglas fir, cherry, hickory, mahogany, maple, oak, walnut, alder or vertical grain Douglas fir. Interior surfaces are available unfinished or factory primed. Factory-applied finishes are available in a variety of stain and paint options. Also available is a selection of seven exterior anodized options.

B Wood components are fitted with aluminum extrusions on the exterior. 50 exterior colors that meet AAMA 2604 and 2605 specifications are available, as well as custom colors. Also available is a selection of seven exterior anodized options.

C The sash replacement kit utilizes a foam weatherstrip on the bottom of the lower sash that forms a weather-tight seal against the sill filler when closed.

D Hollow bulb weatherstrip forms a compression seal at the meeting rails and at the head.

E Each kit utilizes a two-piece foam-backed jamb liner and a block and tackle balancer system. The sash tilt inward for easy cleaning. Beige or white jamb liners are available and are cut to the sill slope specified at time of order.

HARDWARE OPTIONS

HARDWARE FINISHES

Bold name denotes finish shown.

EXTERIOR COLORS 50 exterior colors, 7 anodized finishes and custom colors. See exterior colors on page 11.

INTERIOR WOOD SPECIES

### NOTES

† These units meet or exceed the following dimensions:

- Clear Opening Area 5.7 sq. ft., Clear Opening Width 20", Clear Opening Height 24" and 44" maximum floor to sill height (with standard 6'-10-1/2" structural header height).

See your local code official for requirements in your area.

Units may be ordered with sash lifts if desired. Units 3'-0" and wider will use two sash lifts.

If glass is positioned within 18" of the finished floor, safety/tempered glass may be required. Local codes may differ. Verify tempered glass requirements with your local building code official.

Use structural joining material when necessary or required by code.

The light patterns illustrated apply to rectangular removable interior wood grilles, Full Divided Light, Simulated Divided Light, Decorelle 100, 150 and 400 and Finelight™ Grilles-Between-the-Glass. All removable interior wood grilles will be installed in the units unless otherwise specified.

For a metric conversion in millimeters, multiply dimensions in inches by 25.4.

**FORMULA FOR COMBINATION WINDOWS**

The overall frame dimension (both width and height) is equal to the sum of the individual unit frame dimensions plus joining material dimension(s).

The overall rough opening (both width and height) is equal to the overall frame dimensions plus 1/4" on all sides.

## NOTES
- Units may be ordered with sash lifts if desired.
- Units 3' 0" and wider will use two sash lifts.
- If glass is positioned within 18" of the finished floor, safety/tempered glass may be required. Local codes may differ. Verify tempered glass requirements with your local building code official.
- Use structural joining material when necessary or required by code.
- The light patterns illustrated apply to rectangular removable interior wood grilles, Full Divided Light, Semilucent Divided Light, Decorelle 100, 150 and 400 and FineLight™ Grilles-Between-the-Glass. All removable interior wood grilles will be installed in the units unless otherwise specified.
- For a metric conversion in millimeters, multiply dimensions in inches by 25.4.

## FORMULA FOR COMBINATION WINDOWS

The overall frame dimension (both width and height) is equal to the sum of the individual unit frame dimensions plus joining material dimension(s).

The overall rough opening (both width and height) is equal to the overall frame dimensions plus 1/4" on all sides.
For windows greater than 30 square feet or rated higher than PG50, one of these three installation methods is required:

A) Through the Jamb  
B) Aluminum Installation Flange  
C) Installation Clips.

Additional custom sizes are available. Contact your local supplier for more information. Drawings are not to scale.

BAY & BOW WINDOWS

E-Series bay and bow windows provide a focal point that is architecturally consistent inside and out, making any room feel spacious. They feature consistent sight lines when integrated with double-hung or casement windows, head and seat boards in birch or oak and an all-inclusive accessory package when ordered as a kit.

FEATURES

BAY & BOW WINDOWS

A Select wood components are kiln dried and treated with water/insect repellent and preservative. Interior wood surfaces are available in pine, mixed grain Douglas fir, cherry, hickory, mahogany, maple, oak, walnut, alder or vertical grain Douglas fir. Interior surfaces are available unfinished or factory primed. Factory-applied finishes are available in a variety of stain and paint options. Wood components are fitted with aluminum extrusions on the exterior. 50 exterior colors that meet AAMA 2604 and 2605 specifications are available, as well as custom colors. Also available is a selection of seven exterior anodized options. Compression bulb weatherstrip is applied for a maximum weather seal.

GLASS

B High-Performance Low-E4® glass with a low-conductivity spacer. Triple-pane glass, tinted, clear dual-pane, high-altitude glass and other special glazing options are available. Glass is fixed in place from the interior with wood stops that can be removed for easy reglazing if necessary. Glass stops available in ovolo (colonial) and contemporary profiles.

CABLE SUPPORT SYSTEM

Support is required underneath all bay and bow units. We offer a cable support system for your use. Insulated platforms and brackets are not included.

HEAD & SEAT BOARDS

C Wood head and seat boards are available in birch or oak.

EXTERIOR & INTERIOR OPTIONS

EXTERIOR COLORS 50 exterior colors, 7 anodized finishes and custom colors. See exterior colors on page 11.

INTERIOR WOOD SPECIES

- Pine
- Mixed Grain Douglas Fir
- Oak
- Maple
- Hickory
- Mahogany
- Cherry
- Walnut
- Vertical Grain Douglas Fir
- Alder

FACTORY-FINISHED INTERIORS

- Clear Coat
- Wheat
- Autumn Oak
- Golden Hickory
- Honey
- Cinnamon
- Russet
- Mocha
- Espresso

INTERIOR PAINTED OPTIONS

- White
- Birch Bark
- Primed (for paint)
- Canvas
- Sandtone
- Terratone
- Forest Green
- Dark Bronze
- Dove Gray
- Prairie Grass
- Red Rock
- Cocoa Bean
- Black
- Anodized Silver

Naturally occurring variations in grain, color and texture of wood make each window one of a kind. All factory-finished options are shown on pine. Painted options available on pine. Dark bronze and black painted options available on pine or maple. Anodized silver painted option available on maple only. Interior custom stains, paints and color matching available.

*Actual wood species is either Sapele or Sipo, both non-endangered species grown in Africa, with color and characteristics similar to Central American mahoganies. Printing limitations prevent exact replication of colors and finishes. Please see your Andersen supplier for actual color and finish samples.
**ACCESSORIES** Sold Separately

### BAY & BOW WINDOWS

#### SENSORS

**VeriLock® Security Sensors**

VeriLock sensors are unique as they detect whether the windows are locked or unlocked — a feature no other sensors can provide. Available in all hardware finishes. VeriLock sensors for double-hung sash lock shown above. Also available for casement windows. See page 27 for Smart Home options.

#### INSECT SCREENS

Charcoal fiberglass screen mesh fits into an aluminum frame. Aluminum screen mesh is available as an option. See casement or double-hung sections for additional insect screen options.

#### PRIVACY OPTIONS

**System 3 Blinds for Casement Windows**

A ⅝" aluminum slat blind is mounted to an extruded aluminum blind panel and applied to the window, creating a triple-glazed window boasting privacy and energy efficiency. Available in three colors. Blind panels are offered in white, tan, gold or an optional wood veneer to match your interior.

**System 3 Shades for Casement Windows**

Pleated fabric shades are available in four colors to effortlessly and beautifully filter the light. See page 25 for more details.

#### GRILLES

**Full Divided Light**

Permanent interior and exterior grilles with grille spacer bars between two panes of glass. Available in ⅝", ¾", 1 ⅛", 1 ⅜", or 2 ⅛" widths. Interior grilles are available with ovalo or contemporary profile (ovalo profile shown below). Not all widths are shown.

**Simulated Divided Light**

Permanent exterior and interior grilles without grille spacer bars. Available in ⅝", ¾", 1 ⅛", 1 ⅜", or 2 ⅛" widths. Interior grilles are available with ovalo or contemporary profile (ovalo profile shown below). Not all widths are shown.

**Finelight™ Grilles-Between-the-Glass**

Available in ⅝" flat or 1" contoured aluminum profiles. Two-tone colors of pebble tan/colony white, sierra bronze/colony white or forest green/colony white are available on the 1" profile.

**Removable Interior Wood Grilles**

Removable interior wood grilles are available in a ⅝" width and ovals or contemporary profiles. Optional surround for removable grille and permanent exterior grilles also available. See page 22 for more information on grilles.

#### HARDWARE OPTIONS

**Double-Hung**

- Lock
- Sash Lift

Antique Brass | Black | Bright Chrome | Bronze | Gold
Oil Rubbed Bronze | Pewter | Polished Brass | Satin Chrome | White

Windows with VeriLock sensors use a different sash lock. See above for details.

**Casement**

- Folding Handle

Antique Brass | Black | Bright Chrome | Bronze | Gold
Oil Rubbed Bronze | Pewter | Polished Brass | Satin Chrome | White

Bold frame denotes finish shown.

#### HARDWARE FINISHES

![Antique Brass](image1) ![Black](image2) ![Bright Chrome](image3) ![Bronze](image4) ![Gold](image5) ![Oil Rubbed Bronze](image6) ![Pewter](image7) ![Polished Brass](image8) ![Satin Chrome](image9) ![White](image10)

Oil rubbed bronze is a “living” finish that will change with time and use.

*When properly configured and maintained with a professionally installed security system and/or self monitoring system compatible with Honeywell® 5800 controls. See your Andersen supplier for more information.

Shown with ovolo (colonial) glass stops.
GLIDING WINDOWS

Functionality is the key to our gliding window. Efficient space utilization and sleek lines make this window the right choice for that tight, hard-to-manage space. With two or three sash systems all in one frame and discreet hardware creating clear, unobstructed views, these windows offer a cost-effective design with modern efficiencies.
**FEATURES**

**GLIDING WINDOWS**

**FRAME & SASH**

Select wood components are kiln dried and treated with water/insect repellent and preservative. Interior wood surfaces are available in pine, mixed grain Douglas fir, cherry, hickory, mahogany, maple, oak, walnut, alder or vertical grain Douglas fir. Interior surfaces are available unfinished or factory primed. Factory-applied finishes are available in a variety of stain and paint options.

Wood components are fitted with aluminum extrusions on the exterior. 50 exterior colors that meet AAMA 2604 and 2605 specifications are available, as well as custom colors. Also available is a selection of seven exterior anodized options.

The frame consists of a rigid vinyl head and sill track. The compression-style head track helps create a positive seal between the sash and frame. Vinyl installation flanges are pre-applied into a kerf on the frame exterior to facilitate installation. Optional aluminum flanges or metal installation clips are available.

Compression foam-filled bulb weatherstrip is applied on the sill for maximum resistance to water and air infiltration. Outside and inside sash are sealed with a compression bulb weatherstrip at the meeting stile.

**GLASS**

High-Performance Low-E4® glass with a low-conductivity spacer. Triple-pane glass, tinted, clear dual-pane, high-altitude glass and other special glazing options are available.

Glass is fixed in place from the interior with wood stops that can be removed for easy reglazing if necessary. Glass stops available in ovolo (colonial) and contemporary profiles.

**HARDWARE**

Sash locks and keepers give a slim, more traditional design and allow easy opening. Slim Line sash pulls allow easy operation and do not interfere with window coverings.

**HARDWARE OPTIONS**

Antique Brass | Black | Bright Chrome
Bronze | Gold | Oil Rubbed Bronze
Pewter | Polished Brass
Satin Chrome | White

*Bold name denotes finish shown.*

**HARDWARE FINISHES**

Antique Brass | Black | Bright Chrome
Bronze | Gold

Oil Rubbed Bronze | Pewter | Polished Brass | Satin Chrome | White

*Oil rubbed bronze is a “living” finish that will change with time and use.*

**EXTERIOR & INTERIOR OPTIONS**

**EXTERIOR COLORS**

50 exterior colors, 7 anodized finishes and custom colors. See exterior colors on page 11.

**INTERIOR WOOD SPECIES**

Pine | Mixed Grain Douglas Fir
Oak | Maple
Hickory | Mahogany*
Cherry | Walnut | Vertical Grain Douglas Fir | Alder

*Naturally occurring variations in grain, color and texture of wood make each window one of a kind.*

All factory-finished options are shown on pine.

Painted options available on pine.

Dark bronze and black painted options available on pine or maple.

Anodized silver painted option available on maple only.

Interior custom stains, paints and color matching available.

**FACTORY-FINISHED INTERIORS**

Clear Coat | Wheat | Autumn Oak | Golden Hickory | Honey | Cinnamon | Russet | Mocha | Espresso

**INTERIOR PAINTED OPTIONS**

White | Birch Bark | Primed (for paint) | Canvas | Sandtone | Terratone | Forest Green | Dark Bronze | Dove Gray | Prairie Grass | Red Rock | Cocoa Bean | Black | Anodized Silver

*Painted options available on pine.*

INSECT SCREENS

Conventional Insect Screens
Charcoal fiberglass screen mesh fits into an aluminum frame in all 50 exterior colors. Aluminum screen mesh is available as an option.

TruScene® Insect Screens
TruScene insect screens available in all 50 exterior colors and seven anodized finishes.
See page 24 for more information on our insect screen options.

SENSORS

VeriLock® Security Sensors
VeriLock sensors are unique as they detect whether the windows are locked or unlocked — a feature no other sensors can provide. See page 27 for Smart Home options.

Open/Closed Sensors
Wireless open/closed sensors are available in four colors. See page 27 for details.

GRILLES

Full Divided Light
Permanent interior and exterior grilles with grille spacer bars between two panes of glass. Available in 5/8", 3/4", 1 1/8", 1 1/2", or 2 1/4" widths. Interior grilles are available with ovolo or contemporary profile (ovolo profile shown below). Not all widths are shown.

Simulated Divided Light
Permanent exterior and interior grilles without grille spacer bars. Available in 5/8", 3/4", 1 1/8", 1 1/2", or 2 1/4" widths. Interior grilles are available with ovolo or contemporary profile (ovolo profile shown below). Not all widths are shown.

Finelight™ Grilles-Between-the-Glass
Available in 3/4" flat or 1" contoured aluminum profiles. Two-tone colors of pebble tan/colony white, sierra bronze/colony white or forest green/colony white are available on the 1" profile.

Removable Interior Wood Grilles
Removable interior wood grilles are available in a 7/8" width and ovolo or contemporary profiles. Optional surround for removable grille and permanent exterior grilles also available.

See page 22 for more information on grilles.

### NOTES

† These units meet or exceed the following dimensions: Clear Opening Area 5.7 sq. ft., Clear Opening Width 20", Clear Opening Height 24" and 44" maximum floor to sill height (with standard 6’10-1/2” structural header height). See your local code official for requirements in your area.

3-sash gliding units use 2’0” operating sash as a standard. Additional sash ratios also available.

If glass is positioned within 18” of the finished floor, safety/tempered glass may be required. Local codes may differ. Verify tempered glass requirements with your local building code official.

Use structural joining material when necessary or required by code.

The light patterns illustrated apply to rectangular removable interior wood grilles, Full Divided Light, Simulated Divided Light, Decorelle 100, 150 and 400 and Finelight™ Grilles-Between-the-Glass. All removable interior wood grilles will be installed in the units unless otherwise specified.

For a metric conversion in millimeters, multiply dimensions in inches by 25.4.

---

**FOR WINDOWS GREATER THAN 30 SQUARE FEET OR RATED HIGHER THAN PG50, ONE OF THESE THREE INSTALLATION METHODS IS REQUIRED:**

A) THROUGH THE JAMB  
B) ALUMINUM INSTALLATION FLANGE OR  
C) INSTALLATION CLIPS.

ADDITIONAL CUSTOM SIZES ARE AVAILABLE. CONTACT YOUR LOCAL SUPPLIER FOR MORE INFORMATION. DRAWINGS ARE NOT TO SCALE.
PROPER INSTALLATION AND MAINTENANCE OF E-SERIES PRODUCTS IS ESSENTIAL TO ATTAIN OPTIMUM PERFORMANCE AND OPERATION. WRITTEN INSTALLATION INSTRUCTIONS THAT PROVIDE GUIDELINES FOR PROPER INSTALLATION ARE AVAILABLE BY VISITING ANDERSENWINDOWS.COM. CUSTOM SIZES ARE AVAILABLE. CONTACT YOUR LOCAL SUPPLIER FOR MORE INFORMATION. DRAWINGS ARE NOT TO SCALE.
SPECIALTY WINDOWS

Our made-to-order philosophy lets you be creative with your look. Design your very own window using basic or unique shapes and add decorative glass for a creative accent. Our specialty profiles even complement double-hung and casement details for ultimate design flexibility.
**FRAME & SASH**

A Select wood components are kiln dried and treated with water/insect repellent and preservative. Interior wood surfaces are available in pine, mixed grain Douglas fir, cherry, hickory, mahogany, maple, oak, walnut, alder or vertical grain Douglas fir. Interior surfaces are available unfinished or factory primed. Factory-applied finishes are available in a variety of stain and paint options.

B Wood components are fitted with aluminum extrusions on the exterior. 50 exterior colors that meet AAMA 2604 and 2605 specifications are available, as well as custom colors. Also available is a selection of seven exterior anodized options. Vinyl installation flanges are pre-applied into a kerf on the frame exterior to facilitate installation. Optional aluminum flanges or metal installation clips are available.

**GLASS**

C High-Performance Low-E4® glass with a low-conductivity spacer. Triple-pane glass, tinted, clear dual-pane, high-altitude glass and other special glazing options are available.

D Glass is fixed in place from the interior with wood stops that can be removed for easy reglazing if necessary. Glass stops available in ovol® (colonial) and contemporary profiles.

**EXTERIOR COLORS**

- 50 exterior colors, 7 anodized finishes and custom colors. See exterior colors on page 11.

**INTERIOR WOOD SPECIES**

- Naturally occurring variations in grain, color and texture of wood make each window one of a kind.

**FACTORY-FINISHED INTERIORS**

- All factory-finished options are shown on pine.

**INTERIOR PAINTED OPTIONS**

- Painted options available on pine.

* Actual wood species is either Sapele or Sipo, both non-endangered species grown in Africa, with color and characteristics similar to Central American mahoganies.

 Printing limitations prevent exact replication of colors and finishes. Please see your Andersen supplier for actual color and finish samples.
PRIVACY OPTIONS

Blinds-Between-the-Glass

A 5⁄8” aluminum slat blind is encased between two panes of insulated glass in a dust-free environment (rectangular shapes only). Available colors are white, tan and almond. Blind can be tilted or raised and lowered with the use of one cord (not all sizes are retractable).

System 3 Blinds

A 5⁄8” aluminum slat blind is mounted to an extruded aluminum blind panel and applied to the window, creating a triple-glazed window boasting privacy and energy efficiency. Available in three colors. Blind panels are offered in white, tan, gold or an optional wood veneer to match your interior.

System 3 Shades

Pleated fabric shades are available in four colors to effortlessly and beautifully filter the light. See page 25 for more details.

GRILLES

Full Divided Light

Permanent interior and exterior grilles with grille spacer bars between two panes of glass. Available in 5⁄8”, 3⁄4”, 1 1⁄8”, 1 1⁄2”, or 2 1⁄4” widths. Interior grilles are available with ovolo or contemporary profile (ovolo profile shown below). Not all widths are shown.

Simulated Divided Light

Permanent exterior and interior grilles without grille spacer bars. Available in 5⁄8”, 3⁄4”, 1 1⁄8”, 1 1⁄2”, or 2 1⁄4” widths. Interior grilles are available with ovolo or contemporary profile (ovolo profile shown below). Not all widths are shown.

Finelight™ Grilles-Between-the-Glass

Available in 5⁄8” flat or 1” contoured aluminum profiles. Two-tone colors of pebble tan/colony white, sierra bronze/colony white or forest green/colony white are available on the 1” profile.

Removable Interior Wood Grilles

Removable interior wood grilles are available in a 7⁄8” width and ovolo or contemporary profiles. Optional surround for removable grille and permanent exterior grilles also available.

See page 22 for more information on grilles.

SPECIALTY WINDOWS

E-SERIES

E-Series Specialty Windows
Specialty Shapes

NOTES
The following general guidelines do not apply to every specialty shape. Contact your local supplier for specific limitations of the specialty shapes shown above or about creating custom shapes beyond those shown here.

Overall unit block size should not be larger than 50 sq. ft.
Frame width and height must be between 9" and 144".
Units can only be larger than 82" in one direction.
Corners/angles cannot be less than 27°.
Standard radiuses include:

- 1' 0"
- 1' 2"
- 1' 3"
- 1' 4"
- 1' 6"
- 1' 8"
- 1' 10"
- 2' 0"
- 2' 2"
- 2' 4"
- 2' 6"
- 2' 8"
- 2' 10-19/32"

FOR WINDOWS GREATER THAN 30 SQUARE FEET OR RATED HIGHER THAN PG50, ONE OF THESE THREE INSTALLATION METHODS IS REQUIRED:
A) THROUGH THE JAMB B) ALUMINUM INSTALLATION FLANGE OR C) INSTALLATION CLIPS.
ADDITIONAL CUSTOM SIZES ARE AVAILABLE. CONTACT YOUR LOCAL SUPPLIER FOR MORE INFORMATION. DRAWINGS ARE NOT TO SCALE.
Half Circle Window Sizes

NOTES
If glass is positioned within 18" of the finished floor, safety/tempered glass may be required. Local codes may differ. Verify tempered glass requirements with your local building code official.

Use structural joining material when necessary or required by code.

Some limitations exist for light patterns for removable interior wood grilles, Full Divided Light, Simulated Divided Light, Decorelle 100, 150 and 400 and Finelight™ Grilles-Between-the-Glass. Please contact your local supplier for more information. All removeable interior wood grilles will be installed in the units unless otherwise specified.

For a metric conversion in millimeters, multiply dimensions in inches by 25.4.

HINGED PATIO DOORS

FEATURES

HINGED PATIO DOORS

FRAME & PANEL
A Select wood components are kiln dried and treated with water/insect repellent and preservative. Interior wood surfaces are available in pine, mixed grain Douglas fir, cherry, hickory, mahogany, maple, oak, walnut, alder or vertical grain Douglas fir. Interior surfaces are available unfinished or factory primed. Factory-applied finishes are available in a variety of stain and paint options.

B Wood components are fitted with aluminum extrusions on the exterior. 50 exterior colors that meet AAMA 2604 and 2605 specifications are available, as well as custom colors. Also available is a selection of seven exterior anodized options.

C The frame perimeter consists of a high-quality foam-filled weatherstrip. Inswing and outswing doors receive a factory-applied vinyl installation flange with drip cap. Some in swing patio doors require an adjustable metal installation flange. Optional aluminum flanges and metal installation clips are available.

SILL
Inswing Drainage Sill
D Premium grade aluminum in swing sill with an oak threshold. Sills have a built-in drainage channel that allows water to drain away from the interior of the door. A top plate is removable for easy channel cleaning. A polyurethane thermal barrier helps reduce heat loss. Available in clear anodized or dark bronze anodized finish.

GLASS
G High-Performance Low-E4® glass with a low-conductivity spacer. Triple-pane glass, tinted, clear dual-pane, high-altitude glass and other special glazing options are available.

H Glass is fixed in place from the interior with wood stops that can be removed for easy reglazing if necessary. Glass stops available in ovolo (colonial) and contemporary profiles.

HARDWARE
Multi-Point Locking System
Autolatch® stainless steel multi-point locking system locks the panel in three locations to provide a secure, weather-resistant entry system. Some door heights lock the panel in four locations.

Hinges
Heavy-duty commercial grade hinges are available in a standard finish of polished brass or optional finishes of limited lifetime brass, antique brass, oil rubbed bronze, pewter, satin chrome, bright chrome, white, black, stainless steel or gold dust to match your handle set. Hinges are complete with matching screws. An innovative hinge shimming system allows for minor adjustments.

* Actual wood species is either Sapele or Sipo, both non-endangered species grown in Africa, with color and characteristics similar to Central American mahoganies.

** Oil rubbed bronze is a “living” finish that will change with time and use.
EXTERIOR & INTERIOR OPTIONS

EXTERIOR COLORS  50 exterior colors, 7 anodized finishes and custom colors. See exterior colors on page 11.

Satin Stainless Steel

*Actual wood species is either Sapele or Sipo, both non-endangered species grown in Africa, with color and characteristics similar to Central American mahoganies.

**Matching hinges available in most hardware finishes for inswing patio doors. Mix and match interior and exterior style and finish options are available, excludes FSB hardware.

Bright brass and satin nickel finishes feature a 10-year limited warranty.

Tribeca and Albany hardware are zinc diecast with powder-coated durable finish, other hardware is solid forged brass.

Printing limitations prevent exact replication of colors and finishes. See your Andersen supplier for actual color and finish samples.

"FSB" is a registered trademark of Franz Schneider Brakel GmbH & Co.
RAISED PANEL INSERTS

Available in ½ and ¾ light options. Real wood, available in all wood species, makes up the interior panel insert. The exterior panel insert is made of formed aluminum cladding and is available in all 50 exterior colors and any custom color.

The raised panel inserts are based on the standard 8” bottom rail with 4 ¾” stiles. Available in nine widths to match standard door panel sizes.

Additional intermediate rail options available allowing glass lights to be placed above and below the intermediate rail.

TRANSOMS

Available in two jamb depths to align with your inswing door jamb depth. Design is sloped for water disbursement. Inswing and outswing sash-set transoms are available with 2 ⅞”, 3 ⅛”, 4 ⅜” and 6 ⅜” stiles to match your door.

SIDELIGHTS

Outswing venting sidelights have concealed locks and operate with our convenient folding operator handles. Interior wood-veneered insect screen can be customized to match your interior wood species and finish.

Inswing venting sidelights come with special hardware that locks in the center and complements the door’s handle set. When the handle is activated upwards, shoot bolts engage at the head and sill for added security. Inswing venting sidelights feature an exterior insect screen.

Non-venting direct-set and sash-set sidelights are also available for both inswing and outswing patio doors.

CENTER POST DOOR

Allows door panels to be hinged at the center or at the jamb. Available in two jamb depths: 4 ¾” and 6 ¾”.

The center post is clad laminated veneer lumber (LVL) that provides exceptional structural integrity. A top-hung gliding insect screen is available on the inswing center post door.

COMMERCIAL DOOR PANELS

Available in single or double door applications. The commercial door panels have a 12” bottom rail and 6 ½” stiles. The commercial door panels have a 12” bottom rail, 6 ½” stiles and an optional intermediate rail.

CONCEALED PANIC SYSTEM DOOR

We have created an innovative Concealed Panic System (CPS), eliminating the need for a center astragal and exposed vertical rods on double doors. This system provides a clear opening while maintaining a sleek, uncluttered interior look. The system locks at the head and sill for added security. You get the same warm, real wood interior you’ve come to expect from us without the unsightly clutter common to most commercial doors.

We’ve also aligned with Von Duprin®, the most recognized and trusted brand of commercial hardware in the window and door industry. Von Duprin, along with the Ingersoll-Rand family of brands, provides premium push bars, handle sets, closers and kick plates to make the CPS door truly innovative. Plus, our doors are factory-prepped, making installation much easier.

"Von Duprin" is a registered trademark of Ingersoll-Rand Co.
ACCESSORIES Sold Separately

HINGED PATIO DOORS

HARDWARE

Construction Handle

Temporary construction handle is available with all hinged patio doors. This handle allows operation during the construction phase, protecting finished hardware from damage or job site theft.

Additional hardware options such as exterior keyed locks and more are also available.

SENSORS

Yale® Assure Lock®

Monitor, lock and unlock from anywhere with the Yale Assure Lock. The sleek keyless lock includes Bluetooth® technology for key-free unlocking and is compatible with Z-Wave® for integration with a wide range of smart home platforms. See page 27 for Smart Home options.

VeriLock® Security Sensors

VeriLock sensors are unique as they detect whether the doors are locked or unlocked — a feature no other sensors can provide. See page 27 for Smart Home options.

Open/Closed Sensors

Wireless open/closed sensors are available in four colors. See page 27 for details.

INSECT SCREENS

Retractable Insect Screens

Concealed, retractable insect screen has charcoal fiberglass screen mesh. Available for inswing single or double door units. Insect screen rolls out when needed and retracts into concealed housing when not in use. Available in 50 exterior colors.

Retractable insect screens for outswing doors are field applied to the interior of the door. Available in five colors including white, almond, desert sand, bronze and black.

Hinged Insect Screens for Inswing Patio Doors

Charcoal fiberglass screen mesh fits into an aluminum frame in 50 exterior colors. Provided with a black lockable latch and automatic closer for smooth operation. Available in single or multiple door units. Aluminum screen mesh is also available.

Top-Hung Gliding Insect Screens for Inswing Center Post Patio Doors

Charcoal fiberglass screen mesh fits into an aluminum frame available in 50 exterior colors. Aluminum screen mesh is also available.

PRIVACY OPTIONS

Blinds-Between-the-Glass

A 3⁄4” aluminum slat blind mounted between two panes of insulated glass in a dust-free environment. Available in white, tan and almond. Blinds are magnetically controlled and can be tilted or raised and lowered with one cord. Not available on arch patio doors.

GRILLES

Full Divided Light

Permanent interior and exterior grilles with grille spacer bars between two panes of glass. Available in 3⁄4”, 1⁄2”, 1 1⁄8”, or 2 1⁄4” widths. Interior grilles are available with ovo or contemporary profile (ovolo profile shown below). Not all widths are shown.

Simulated Divided Light

Permanent exterior and interior grilles without grille spacer bars. Available in 3⁄4”, 1 1⁄4”, 1 1⁄2”, or 2 1⁄2” widths. Interior grilles are available with ovo or contemporary profile (ovolo profile shown below). Not all widths are shown.

Finelight™ Grilles-Between-the-Glass

Available in 3⁄4” flat or 1” contoured aluminum profiles. Two-tone colors of pebble tan/colony white, sierra bronze/colony white or forest green/colony white are available on the 1” profile.

Removable Interior Wood Grilles

Removable interior wood grilles are available in a 3⁄4” width and ovo or contemporary profiles. Optional surround for removable grille and permanent exterior grilles also available.

*When properly configured and maintained with a professionally installed security system and/or self-monitoring system compatible with Honeywell® 5800 controls. See your Andersen supplier for more information.

**Not all sizes are retractable. See your local Andersen supplier for details.
Door Panel Options
Andersen® E-Series offers a wide range of door styles to accommodate any home project style. Both contemporary and French panel styles are available to complement traditional or modern architecture.

Hinged Patio Door Handing

The door handing and order designation noted below and on the opposite page is consistent with the handing of other Andersen® doors and is used throughout the remainder of the hinged patio doors section.

**Identification**
All hinged doors are viewed from the exterior. From left to right, choose stationary, active or passive, then choose hinge location.

**Stationary Panel**
Non-operating panel.

**Left Hinged**
Hinges mounted on the left side of the panel.

**Right Hinged**
Hinges mounted on the right side of the panel.

**Active Panel**
The operating panel most often used.

**Passive Panel**
The operating panel with astragal attached.

**Stationary Panel**
Non-operating panel.

**Left Hinged**
Hinges mounted on the left side of the panel.

**Right Hinged**
Hinges mounted on the right side of the panel.

**Active Panel**
The operating panel most often used.

**Passive Panel**
The operating panel with astragal attached.

**Stationary Panel**
Non-operating panel.

**Left Hinged**
Hinges mounted on the left side of the panel.

**Right Hinged**
Hinges mounted on the right side of the panel.

**Active Panel**
The operating panel most often used.

**Passive Panel**
The operating panel with astragal attached.

**Stationary Panel**
Non-operating panel.

NOTES

All doors and sidelights use safety/tempered glass.

The minimum vertical joining material width for doors and sidelights is 1/2".

See handing chart on page 132 for operation options.

Use structural joining material when necessary or required by code.

The light patterns illustrated apply to removable interior wood grilles, Full Divided Light, Simulated Divided Light, Decorelle 100, 150 and 400 and Finelight™ Grille-Between-the-Glass. All removable interior wood grilles will be installed in the units unless otherwise specified.

For a metric conversion in millimeters, multiply dimensions in inches by 25.4.

**Inswing Frame Height (using Low Threshold Sill)**

\[ \text{Standard Inswing Frame Height} - 15/16" \]

**FORMULA FOR COMBINATION DOORS**

The overall frame dimension (both width and height) is equal to the sum of the individual unit frame dimensions plus joining material dimension(s).

The overall rough opening (both width and height) is equal to the overall frame dimensions plus 1/4" on all sides.

Any unit within each combination can be operating or stationary except for direct-set units and transoms.
Double Hinged Inswing Patio Door Sizes

NOTES
All doors and sidelights use safety/tempered glass.
The minimum vertical joining material width for doors and sidelights is 1/2".
See handing chart on page 132 for operation options.
Use structural joining material when necessary or required by code.
For a metric conversion in millimeters, multiply dimensions in inches by 25.4.

Inswing Frame Height (using Low Threshold Sill)
= Standard Inswing Frame Height – 15/16"

FORMULA FOR COMBINATION DOORS
The overall frame dimension (both width and height) is equal to the sum of the individual unit frame dimensions plus joining material dimension(s).
The overall rough opening (both width and height) is equal to the overall frame dimensions plus 1/4" on all sides.
Any unit within each combination can be operating or stationary except for direct-set units and transoms.

ALSO AVAILABLE AS:
Stationary Doors SS
Center Post Doors SAR, ASL, SAL, ASR

CUSTOM SIZES ARE AVAILABLE. CONTACT YOUR LOCAL SUPPLIER FOR MORE INFORMATION. DRAWINGS ARE NOT TO SCALE.
FOR WINDOWS GREATER THAN 30 SQUARE FEET OR RATED HIGHER THAN PG50, ONE OF THESE THREE INSTALLATION METHODS IS REQUIRED:
A) THROUGH THE JAMB B) ALUMINUM INSTALLATION FLANGE OR C) INSTALLATION CLIPS.

ADDITIONAL CUSTOM SIZES ARE AVAILABLE. CONTACT YOUR LOCAL SUPPLIER FOR MORE INFORMATION. DRAWINGS ARE NOT TO SCALE.

NOTES
All doors and sidelights use safety/tempered glass.

The minimum vertical joining material width for doors and sidelights is 1/2”. When joining a venting sidelight to a door, the minimum vertical joining material width is 2”.

Use structural joining material when necessary or required by code.

The light patterns illustrated apply to removable interior wood grilles, Full Divided Light, Simulated Divided Light, Decorelle 100, 150 and 200 and Finelight™ Grilles-Between-the-Glass. All removable interior wood grilles will be installed in the units unless otherwise specified.

For a metric conversion in millimeters, multiply dimensions in inches by 25.4.

FORMULA FOR COMBINATION DOORS
The overall frame dimension (both width and height) is equal to the sum of the individual unit frame dimensions plus joining material dimension(s).

The overall rough opening (both width and height) is equal to the overall frame dimensions plus 1/4” on all sides.

Any unit within each combination can be operating or stationary except for direct-set units and transoms.

**NOTES**

All doors and sidelights use safety/tempered glass.

The minimum vertical joining material width for doors and sidelights is 1/2".

*Commercial sized door panels.

See handing chart on page 132 for operation options.

Use structural joining material when necessary or required by code.

For a metric conversion in millimeters, multiply dimensions in inches by 25.4.

**FORMULA FOR COMBINATION DOORS**

The overall frame dimension (both width and height) is equal to the sum of the individual unit frame dimensions plus joining material dimension(s).

The overall rough opening (both width and height) is equal to the overall frame dimensions plus 1/4" on all sides.

Any unit within each combination can be operating or stationary except for direct-set units and transoms.

**Outswing Frame Height Formula**

(using Low Threshold Sill)

Standard Outswing Frame Height – 7/16"

CUSTOM SIZES ARE AVAILABLE. CONTACT YOUR LOCAL SUPPLIER FOR MORE INFORMATION. DRAWINGS ARE NOT TO SCALE.
**NOTES**

All doors and sidelights use safety/tempered glass.

The minimum vertical joining material width for doors and sidelights is 1/2". When joining a venting sidelight to a door, the minimum vertical joining material width is 2".

*Commercial sized door panels.

See handing chart on page 132 for operation options.

Use structural joining material when necessary or required by code.

The light patterns illustrated apply to removable interior wood grilles, Full Divided Light, Simulated Divided Light, Decorelle 100, 150 and 400 and Finelight™ Grilles-Between-the-Glass. All removable interior wood grilles will be installed in the units unless otherwise specified.

---

**FOR WINDOWS GREATER THAN 30 SQUARE FEET OR RATED HIGHER THAN PG50, ONE OF THESE THREE INSTALLATION METHODS IS REQUIRED:**

- A) THROUGH THE JAMB
- B) ALUMINUM INSTALLATION FLANGE OR C) INSTALLATION CLIPS.

**ADDITIONAL CUSTOM SIZES ARE AVAILABLE. CONTACT YOUR LOCAL SUPPLIER FOR MORE INFORMATION. DRAWINGS ARE NOT TO SCALE.**
Hinged Outswing Patio Door Sash-Set Transom Sizes

NOTES
If glass is positioned within 18" of the finished floor, safety/tempered glass may be required. Local codes may differ. Verify tempered glass requirements with your local building code official.

Use structural joining material when necessary or required by code.

GLIDING PATIO DOORS

Choose from our French panels with 8" or 12" bottom rail options, or one of two narrower panel profiles for a more contemporary look, to create an open view to the outside. E-Series gliding patio doors feature multi-point locking hardware for a firm, secure seal and tandem ball bearing rollers for smooth operation.
GLIDING PATIO DOORS

FEATURES

GLIDING PATIO DOORS

FRAME & PANEL

A Select wood components are kiln dried and treated with water/insect repellent and preservative. Interior wood surfaces are available in pine, mixed grain Douglas fir, cherry, hickory, mahogany, maple, oak, walnut, alder or vertical grain Douglas fir. Interior surfaces are available unfinished or factory primed. Factory-applied finishes are available in a variety of stain and paint options.

B Wood components are fitted with aluminum extrusions on the exterior. 50 exterior colors that meet AAMA 2604 and 2605 specifications are available, as well as custom colors. Also available is a selection of seven exterior anodized options.

C The frame consists of foam-filled leaf weatherstrip on the exterior creating a weather-resistant pocket for the door panel. A dual weatherstrip seal on the interlock is fitted between the fixed and operating meeting stiles.

D Wood components are fitted with aluminum extrusions on the exterior. 50 exterior colors that meet AAMA 2604 and 2605 specifications are available, as well as custom colors. Also available is a selection of seven exterior anodized options.

E Wood components are fitted with aluminum extrusions on the exterior. 50 exterior colors that meet AAMA 2604 and 2605 specifications are available, as well as custom colors. Also available is a selection of seven exterior anodized options.

GLASS

D High-Performance Low-E4® glass with a low-conductivity spacer. Triple-pane glass, tinted, clear dual-pane, high-altitude glass and other special glazing options are available.

E Glass is fixed in place from the interior with wood stops that can be removed for easy reglazing if necessary. Glass stops available in ovolo (colonial) and contemporary profiles.

HARDWARE

Steel Rollers

Operating panel consists of two tandem ball bearing steel roller assemblies. Stainless steel roller assemblies are available as an option.

Multi-Point Locking System

The multi-point locking system features a unique reachout design that pulls the door panel tightly closed for a weather-tight seal and enhanced security.

ACCESSORIES Sold Separately

HARDWARE

Auxiliary Foot Lock

An enhanced foot lock is discretely positioned on the side of the panel. Foot lock provides an extra measure of security when door is in locked position. Available in finish options to complement handle sets.

Additional hardware options such as exterior keyed locks and more are also available.

SENSORS

VeriLock® sensors and open/closed sensors are available for sliding patio doors. See page 27 for Smart Home options.

INSECT SCREENS

Top-Hung Gliding Insect Screens

Charcoal fiberglass screen mesh fits into an aluminum frame available in 50 exterior colors. Aluminum screen mesh is also available as an option.

Retractable Insect Screens

The retractable insect screen has charcoal fiberglass screen mesh. Insect screen retracts when not needed, providing an unobstructed view through the glass. Available in 50 exterior colors. See page 24 for more information on our insect screen options.

PRIVACY OPTIONS

Blinds-Between-the-Glass

A ¼" aluminum slat blind mounted between two panes of insulated glass in a dust-free environment. Available in white, tan and almond. Blinds are magnetically controlled and can be tilted or raised and lowered with one cord. Not available on arch patio doors.

Simulated Divided Light

Permanent exterior and interior grilles without grille spacer bars. Available in ½", ¾", 1 ⅜", 1 ⅞", or 2 ½" widths and ovolo or contemporary profiles. The ovolo profile is shown below, not all widths are shown.

GRILLES

Full Divided Light

Permanent interior and exterior grilles with grille spacer bars between two panes of glass. Available in ½", ¾", 1 ⅜", 1 ⅞", or 2 ½" widths and ovolo or contemporary profiles. The ovolo profile is shown below, not all widths are shown.

Finelight™ Grilles-Between-the-Glass

Available in ½" flat or 1" contoured aluminum profiles. Two-tone colors of pebble tan/colony white, sierra bronze/colony white or forest green/colony white are available on the 1" profile.

Removable Interior Wood Grilles

Removable interior wood grilles are available in a ¾" width and ovolo or contemporary profiles. Optional surround for removable grille and permanent exterior grilles also available.

*Actual wood species is either Sapele or Sipo, both non-endangered species grown in Africa, with color and characteristics similar to Central American mahoganies.

**Not all sizes are retractable. See your local dealer for details.
**EXTERIOR & INTERIOR OPTIONS**

**EXTERIOR COLORS**  50 exterior colors, 7 anodized finishes and custom colors. See exterior colors on page 11.

**INTERIOR WOOD SPECIES**

Pine  Mixed Grain  Douglas Fir  Oak  Hickory  Mahogany  Cherry  Walnut  Vertical Grain  Douglas Fir  Alder

**FACTORY-FINISHED INTERIORS**

Clear Coat  Wheat  Autumn Oak  Golden Hickory  Honey  Cinnamon  Russet  Mocha  Espresso

**INTERIOR PAINTED OPTIONS**

White  Birch Bark  Primed (for paint)  Canvas  Sandtone  Terratone  Forest Green  Dark Bronze  Dove Gray  Prairie Grass  Red Rock  Cocoa Bean  Black  Anodized Silver

**HARDWARE OPTIONS**

**YUMA®**  Distressed  Bronze  Distressed Nickel

**ENCINO®**  Distressed Bronze  Distressed Nickel

**NEWBURY®**  Antique Brass  Bright Brass  Brushed Chrome  Oil Rubbed Bronze  Polished Chrome  Satin Nickel

**ANVERS®**  Bright Brass  Oil Rubbed Bronze  Satin Nickel

**COVINGTON™**  Antique Brass  Bright Brass  Oil Rubbed Bronze

**WHITMORE®**  Antique Brass  Bright Brass  Oil Rubbed Bronze  Satin Nickel

**ALBANY®**  Black  Gold Dust  Stone  White

**TRIBECA®**  Stone  White

Bold name denotes finish shown.

**HARDWARE FINISHES**

Antique Brass  Black  Bright Brass  Brushed Chrome  Distressed Bronze  Distressed Nickel  Gold Dust  Oil Rubbed Bronze  Polished Chrome  Satin Nickel  Stone  White

Oil rubbed bronze is a “living” finish that will change with time and use.

*Naturally occurring variations in grain, color and texture of wood make each window one of a kind.

All factory-finished options are shown on pine.

Painted options available on pine.

Dark bronze and black painted options available on pine or maple.

Anodized silver painted option available on maple only.

Interior custom stains, paints and color matching available.

*Actual wood species is either Sapele or Sipo, both non-endangered species grown in Africa, with color and characteristics similar to Central American mahoganies.

Mix and match interior and exterior style and finish options are available.

Bright brass and satin nickel finishes feature a 10-year limited warranty.

Tribeca and Albany hardware are zinc diecast with powder-coated durable finish, other hardware is solid forged brass.

Printing limitations prevent exact replication of colors and finishes. See your Andersen supplier for actual color and finish samples.
**Gliding Patio Door Panel Labeling**

**Door Panel Options**
Andersen® E-Series offers both contemporary and French panel styles to complement traditional or modern architecture.

Astragal is attached on third panel from the left (as viewed from the exterior).
Gliding Patio Door Sizes

NOTES
All doors and sidelights use safety/tempered glass.

Astragal is applied to third panel from the left (as viewed from the exterior) on a 4-panel gliding patio door.

* * 4-panel doors are shipped knocked down and require field assembly because of size and weight.

Use structural joining material when necessary or required by code.

The light patterns illustrated apply to removable interior wood grilles, Full Divided Light, Simulated Divided Light, Decorelle 100, 150 and 400 and Finelight™ Grilles-Between-the-Glass. All removable interior wood grilles will be installed in the units unless otherwise specified.

For a metric conversion in millimeters, multiply dimensions in inches by 25.4.

FORMULA FOR COMBINATION DOORS
The overall frame dimension (both width and height) is equal to the sum of the individual unit frame dimensions plus joining material dimension(s).

The overall rough opening (both width and height) is equal to the overall frame dimensions plus 1/4” on all sides.

CUSTOM SIZES ARE AVAILABLE. CONTACT YOUR LOCAL SUPPLIER FOR MORE INFORMATION. DRAWINGS ARE NOT TO SCALE.
FOR WINDOWS GREATER THAN 30 SQUARE FEET OR RATED HIGHER THAN PG50, ONE OF THESE THREE INSTALLATION METHODS IS REQUIRED:

A) THROUGH THE JAMB
B) ALUMINUM INSTALLATION FLANGE
C) INSTALLATION CLIPS.

ADDITIONAL CUSTOM SIZES ARE AVAILABLE. CONTACT YOUR LOCAL SUPPLIER FOR MORE INFORMATION. DRAWINGS ARE NOT TO SCALE.

Gliding Patio Door Direct-Set Elliptical Sizes (Specialty Frame)

Gliding Patio Door Direct-Set Transom Sizes (Specialty Frame)

NOTES

All doors and sidelights use safety/tempered glass.

If glass is positioned within 18" of the finished floor, safety/tempered glass may be required. Local codes may differ. Verify tempered glass requirements with your local building code official.

Astragal is applied to third panel from the left (as viewed from the exterior) on a 4-panel gliding patio door.

**4-panel doors are shipped knocked down and require field assembly because of size and weight.

See transom notes on page 149.

Use structural joining material when necessary or required by code.

The light patterns illustrated apply to removable interior wood grilles, Full Divided Light, Simulated Divided Light, Decorelle 100, 150 and 400 and Finelight™ Grilles-Between-the-Glass. All removable interior wood grilles will be installed in the units unless otherwise specified. The staggered light patterns illustrated align with light patterns for the gliding door. Other light patterns are available upon request.

For a metric conversion in millimeters, multiply dimensions in inches by 25.4.

FORMULA FOR COMBINATION DOORS

The overall frame dimension (both width and height) is equal to the sum of the individual unit frame dimensions plus joining material dimension(s).

The overall rough opening (both width and height) is equal to the overall frame dimensions plus 1/4" on all sides.
Gliding Patio Door Direct-Set Half Circle Sizes (Specialty Frame)

NOTES
4' 11-3/4" wide units are used above 5068, 50610 or 5080 Gliding Patio Doors.
5' 11-3/4" wide units are used above 6068, 60610 or 6080 Gliding Patio Doors.
7' 7-3/4" wide units are used above 7668, 76610 or 7680 Gliding Patio Doors.
7' 11-3/4" wide units are used above 8068, 80610 or 8080 Gliding Patio Doors.
9' 1-3/4" wide units are used above 9068, 90610 or 9080 Gliding Patio Doors.
See notes on page 148 for more information.

Contemporary door panel shown with ovolo (colonial) glass stops.
Dimensions in parentheses are in millimeters.

The E-Series Sub-Frame Shell System is a simple and effective way to meet remodeling needs for residential and commercial projects. Preserving existing buildings and neighborhoods has become increasingly important to our society. And a good, sound, older structure can be as efficient as, if not more efficient than, a new building.

Many E-Series products will work in the Sub-Frame Shell System for remodeling, which means you have unlimited design choices to fit the existing architecture. The Sub-Frame Shell System is a heavy aluminum perimeter-flange sub-frame that covers most existing construction conditions. It can be installed from the inside without costly scaffolding or off-staging.

*Test specimen size is smaller than the North American Fenestration Standard (NAFS) gateway size specified for this product type and performance class.*

*Hinged doors with a low threshold sill have limited water performance.*

*Numbered footnotes provide additional panel types for the same patio door, sidelight or transom listed above that are covered by the given test data. Commercial patio door panels, referenced as an additional panel type in the numbered footnotes below, do not include commercial doors with Concealed Panic System (CPS).*

1. Applies to similar contemporary door panel with 4 3/16" stiles & rails. Also applies to French door panel with 4 3/16" stiles, 4 3/16" top rail and 8" or 12" bottom rail.
2. Also applies to French door panels with 4 3/16" stiles, 4 3/16" top rail and 8" or 12" bottom rail.
3. Applies to similar contemporary door panels with 4 3/16" stiles & rails in doors with a unit dimension greater than 12' wide. Also applies to French door panels with 4 3/16" stiles, 4 3/16" top rail and 8" or 12" bottom rail in doors with a unit dimension greater than 12' wide.
4. Applies to similar French sidelight panel with 12" bottom rail; includes comparable commercial panel and similar non-commercial panel with intermediate rail and raised panel insert. Also applies to French door panel with 4 3/16" stiles, 4 3/16" top rail and 8" or 12" bottom rail; includes comparable commercial panel and similar non-commercial panel with intermediate rail and raised panel insert.
5. Also applies to contemporary door panel(s) with 4 3/16" stiles & rails.
6. Also applies to French door panel(s) with 4 3/16" stiles, 4 3/16" top rail and 8" or 12" bottom rail with or without intermediate rail and with or without raised panel insert; includes comparable commercial panel(s). Also applies to similar French door panel(s) with 12" bottom rail with or without intermediate rail and with or without raised panel insert; includes comparable commercial panel(s).
7. Applies to similar French door panel(s) with 12" bottom rail with or without intermediate rail and with or without raised panel insert; includes comparable commercial panel(s).
8. Applies to similar French door panel(s) with 12" bottom rail; includes comparable commercial panel(s).
9. Also applies to French door panels with 4 3/16" stiles, 4 3/16" top rail and 8" or 12" bottom rail; includes comparable commercial panels.
### PRODUCT PERFORMANCE

**Performance Grade (PG)” ratings may vary from tested performance rating for larger or smaller units of a particular type.

• This data is accurate as of October 2018. Due to ongoing product changes, updated test results or new industry standards, this data may change over time.

• Where designated, Andersen products are certified and labeled to the requirements of the Hallmark Certification Program. Actual performance may vary based on variations in manufacturing, shipping, installation, environmental conditions and conditions of use.

• Contact your Andersen supplier for more information.

• **Hinged doors with a low threshold sill have limited water performance.

Numbered footnotes provide additional panel types for the same patio door, sidelight or transom listed above that are covered by the given test data.

Commercial patio door panels, referenced as an additional panel type in the numbered footnotes below, do not include commercial doors with Concealed Panic System (CPS).

5 Applies to contemporary door panel(s) with 4 11/16" stiles & rails.

7 Applies to similar French door panel(s) with 12" bottom rail with or without intermediate rail and with or without raised panel insert; includes comparable commercial panel(s).

8 Applies to similar French door panel(s) with 12" bottom rail; includes comparable commercial panel(s).

10 Also applies to all available panels.

11 Also applies to transom panel with 4 11/16" stiles and transom panel with 4 11/16" stiles and rails; includes all commercial transom panels.

12 Applies to similar French door panel with 12" bottom rail; includes arch and unequal leg arch door panel with or without intermediate rail and with or without raised panel insert. Also applies to French sidelight panel with 8" or 12" bottom rail with or without intermediate rail and with or without raised panel insert.

13 Also applies to all arch and unequal leg arch door panels with 4 11/16" stiles.

14 Applies to similar French panel with intermediate rail at 33 3/4" location and raised panel insert. Also applies to French door panel with 4 11/16" stiles, 4 11/16" top rail and 8" or 12" bottom rail with intermediate rail with raised panel insert.

15 Applies to similar French door panel with 12" bottom rail; includes comparable commercial sidelight panel. Also applies to French door panel with 4 11/16" stiles, 4 11/16" top rail and 8" or 12" bottom rail; includes comparable commercial door panel.

16 Applies to similar French door panel with intermediate rail at 33 3/4" location. Also applies to French door panel with 4 11/16" stiles, 4 11/16" top rail and 12" bottom rail and intermediate rail; includes comparable commercial door panel.

PDF NAVIGATION TIPS
Welcome to an overview of the enhanced navigation tools available in this PDF. Here are some simple tips on PDF navigation. Before you begin be sure you are using the latest version of Adobe Acrobat Reader DC, available at – https://get.adobe.com/reader/

To watch a 3-minute tutorial on navigating catalog PDFs, go to: https://youtu.be/sWWnYn6ON3Y

BOOKMARK NAVIGATION

1. Acrobat will display the bookmarks panel when you open the PDF.

2. Bookmarks are the easiest way to find specific product information.

   Select a topic and that page will be displayed.

   ![Bookmarks panel](image)

   ![Printing a section](image)

   If you need to print a specific section, right click on that section within in the bookmarks panel and choose “Print Section.”

LINKS AND URL NAVIGATION

1. You can also use the embedded links to navigate between sections. All links are underlined in blue.

2. Website links automatically open in your web browser.

   ![Beauty in the Details](image)
Add additional navigation tools by adjusting the default settings in Acrobat.

1. To add a “Jump Back” Button to your tool bar, **right click on tool bar**, select **Show Page Navigation Tools** and choose **Show All Page Navigation Tools**.

Right and left facing arrows are added to the tool bar allowing you to go back or forward to the last page you viewed.

2. Another helpful tool is the **Loupe Tool**. It allows you to zoom in on the page without having to increase the page size.

To add a **Loupe Tool** to your tool bar, **right click on tool bar**, select **Show Select & Zoom Tools** and then choose **Show All Select & Zoom Tools**.

3. You can also use the **commenting tools**. Add a post-it-note with your comments or highlight important information.

Be sure to save the file.
