Product Series:
- E-Series (Inswing & Outswing)
- E-Series Stormwatch (Inswing & Outswing)
- A-Series Frenchwood (Inswing & Outswing)
- A-Series Frenchwood Stormwatch (Inswing)
- 400 Series Frenchwood (Inswing & Outswing)
- 200 Series (Inswing)
- Complementary Curved Top (Inswing & Outswing)
- Folding Doors
- Residential Entry Doors with Multi-Point Lock (Inswing & Outswing)

Product Type: Hinged Doors

Tools and Supplies Needed:
- Safety Glasses
- Phillips Screwdriver
- Caulk Gun
- Sealant

WARNING
- Use caution when working at elevated heights and around window and door openings. Follow the manufacturers’ instructions for ladders and scaffolding. Failure to do so could result in injury or death.
- Follow manufacturers’ instructions for hand and power tools. Always wear safety glasses. Failure to do so could result in injury, product or property damage.
- Incorrect installation may affect egress and home security. Follow instruction guide to make sure hardware is installed correctly.
- Windows and doors have small parts (e.g. hole plugs, operator spline caps, fasteners, etc.). Small parts if swallowed could pose a choking hazard to young children. Dispose of unused, loose, or easily removed small parts. Failure to do so could result in injury.

NOTICE
Before installing hardware, install door panels and finish interior wood surfaces of unit.
**Parts Included:**

**Active Hardware**
1. Interior Escutcheon Plate
2. Exterior Escutcheon Plate
2. Escutcheon Base Plate
2. Escutcheon Base Plate Screw
2. Escutcheon Base Plate Sleeve Nut
1. Spindle
1. Interior Handle
1. Exterior Handle
2. Set Screw
1. 3 mm Hex Key
1. Latch Strike Plate
2. Receiver Screw
1. Lock Actuator
1. Limiting Plate
2. Limiting Plate Screw
1. Screw Retainer

**Exterior Keyed Lock Kit (optional)**
1. Keyed Lock Exterior Escutcheon Plate
1. Exterior Keyed Lock Gasket

**Additional Parts Included:**

**Passive Hardware** *(AP/PA Kits ONLY)*
1. Interior Escutcheon Plate
1. Exterior Escutcheon Plate
2. Escutcheon Base Plate
2. Escutcheon Base Plate Screw
2. Escutcheon Base Plate Sleeve Nut
1. Spindle
1. Interior Handle
1. Exterior Handle
2. Set Screw
1. 3 mm Hex Key
1. **Active Hardware Application Only**

Insert lock actuator and limiting plate into lock hole on interior side of door panel as shown.

2. **NOTICE**

If optional exterior keyed lock is being installed with patio door hardware, substitute cylinder assembly in place of screw retainer.

**Active Hardware Application Only**

Insert limiting plate screws and screw retainer as shown. Hold screw retainer on the exterior while tightening screws on the interior.

**IMPORTANT**

Construction handle set components cannot be used with standard trim sets. Remove all construction handle set components before installing FSB trim set hardware.

*Screw Retainer*

*Exterior Keyed Lock Cylinder Assembly*
Fill bottom screw hole with sealant as shown. Position escutcheon base plates over spindle on both sides. Fasten using escutcheon base plate screws and sleeve nuts as shown. (DO NOT fully tighten screws until escutcheon base plates are straight up and down.)
4

Position interior and exterior escutcheon plates over the escutcheon base plates as shown. Apply firm pressure to top and bottom ends until attachment clips engage.

5

Handles must point toward the glass with set screw on the bottom.

Partially insert set screw before applying handle to panel.

Partially insert set screw into hole on bottom of handles. Slide handles onto spindle, tight to escutcheon plate. Tighten set screws on both handles using 3 mm hex key.
Check operation. If handles do not seat or operate smoothly, loosen interior set screw one-quarter turn at a time until handles operate smoothly.

For A-Series Frenchwood® Hinged Patio Doors (Outswing) and 200 Series Hinged Patio Doors (Inswing), discard remaining latch strike plate. Active trim set hardware application is complete.

For A-Series Frenchwood® Hinged Patio Doors (Inswing) and 400 Series Frenchwood® Hinged Patio Doors (Inswing) proceed to next step.
A-Series Frenchwood® Hinged Inswing and 400 Series Frenchwood Hinged Inswing Patio Doors Only

NOTICE
Frenchwood® Patio Door latch strike plates differ for active doors versus active-passive/passive-active two panel doors. Follow procedure for your type of door.

Active Unit
(Jamb)

AP/PA Unit
(Passive Panel)

Care and Maintenance

General Information
Your Andersen® hardware has been manufactured of high quality, fine metal. Fine metal requires periodic attention to maintain its beauty and characteristics. Climate, location, and exposure to corrosive environments such as industrial areas, pesticides, herbicides, or salts are challenges to your ability to maintain the hardware’s beauty and characteristics.

Cleaning Procedure
Wash hardware using a mild detergent and a soft cloth to remove mild stains, loose dirt, and soil. Avoid abrasive cleaners, cloths, or brushes. When mild detergent and a soft cloth are not adequate, a diluted, household vinegar solution (5%) and a soft bristled, non-abrasive brush may be used. Avoid contact with painted components and nearby surfaces. After cleaning, wipe down with a damp cloth and wipe dry to prevent spots.
